

Oregon Psilocybin Services

Dual Licensure and HB 2387

HB 2387 was passed by the Oregon Legislature in 2025 and contains provisions that affect licensed psilocybin facilitators who hold professional licenses that are regulated by specific licensing boards in Oregon. This fact sheet describes provisions affecting dual licensed individuals under HB 2387.

For more information about Oregon Psilocybin Services (OPS), please go to:

www.oregon.gov/psilocybin

Clients may seek access to psilocybin services for different reasons, including general wellness or specific health concerns. Individuals working in health and wellness fields may be interested in becoming a licensed psilocybin facilitator. For more information on facilitator license requirements, please see the [OPS Facilitator License fact sheet](#).

House Bill 2387

[House Bill 2387](#) (HB 2387) was passed by the Oregon Legislature in 2025 and contains provisions that affect licensed psilocybin facilitators who hold professional licenses that are regulated by specific licensing boards in Oregon.

The legislation identifies seven boards and grants specific protections and privileges for people licensed by those boards:

- (A) Oregon Board of Licensed Professional Counselors and Therapists;
- (B) Oregon Board of Naturopathic Medicine;
- (C) Oregon Board of Psychology;
- (D) Oregon Medical Board;
- (E) Oregon State Board of Nursing;
- (F) State Board of Licensed Social Workers;
- (G) State Board of Pharmacy.

Dual Licensure and Psilocybin Facilitators under ORS 475A

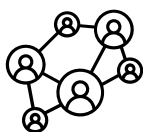

Beginning January 1, 2026, a facilitator licensed under ORS 475A.325 who is also licensed by one of the seven boards may conduct preparation and integration sessions under both licenses. This may be referred to as “dual licensure”. A facilitator must notify OHA in a form and manner prescribed by the Authority if licensed under these specific boards. After notifying OHA, psilocybin facilitators with “dual licensure” may:

1. Conduct preparation sessions with clients in addition to and while providing health care or behavioral health care services.

2. Conduct administration sessions with clients, so long as the person does not provide health care or behavioral health care services during the administration session.

3. Conduct integration sessions with clients in addition to and while providing health care or behavioral health care services.

Protections for Professionals Licensed by the Identified Boards

HB 2387 prohibits specific licensing boards from disciplining licensees for lawfully providing psilocybin services as a licensed facilitator. Facilitators who hold licenses issued by the identified boards are encouraged to contact appropriate licensing boards with any questions related to this new law.

All licensed facilitators must comply with statute and administrative rules. OPS will investigate complaints, incidents, or concerns related to safety issues or statute and rule violations that occur during the provision of psilocybin services.
