

How to Find Approved Continuing Education for Psilocybin Facilitators

Dear Licensed Facilitators,

To ensure your continuing education (CE) hours count toward your annual renewal, follow these steps to find continuing education that meets Oregon Psilocybin Services' requirements:

1. Identify OHA-Approved Programs

Visit the Oregon Health Authority's official list of **Psilocybin Training Programs with Approved Curriculum**. Continuing education courses offered by programs on this list may qualify as continuing education under OAR 333-333-3300.

OHA Training Program Approval page

<https://psilocybin.oregon.gov/training-approved>

→ includes up-to-date, approved program names and contact info

OR

Use other resources to find courses offered by organizations or conferences that have been approved by a professional licensing body to offer continuing education for other types of professional licenses or certifications that meet the eligibility requirements described in step 3.

2. Choose “Information for Licensed Facilitators” Resource

On the **Information for Licensed Facilitators** page, <https://www.oregon.gov/oha/PH/PREVENTIONWELLNESS/Pages/Psilocybin-Information-for-Licensed-Facilitators.aspx>, you’ll find details about continuing education requirements, including the CE hours log form, entry instructions, and reporting guidance.

3. Confirm Eligibility Criteria

Valid CE must:

- Cover subject matter aligned with the **core curriculum** (OAR 333-333-3050 and 333-333-3060)
- Be delivered via programs **with OHA-approved curriculum** or through **conferences or organizations** approved by other professional licensing bodies

4. Verify Certificate Requirements

If your CE comes from a provider that is not an OPS Training Program with approved curricula, providers must issue CE certificates that include:

- Date of training
- Program/organization name & contact info

- Approving organization's name (for other licensure)
- Relevance statement to core curriculum (OAR 333-333-3050/3060)

Certs missing any of these details **will not be accepted**.

5. Use the OPS CE Hours Log

As of January 1, 2026, use the **Continuing Facilitator Education Hours Log**,

<https://www.oregon.gov/oha/PH/PREVENTIONWELLNESS/Documents/Continuing-Facilitator-Education-Hours-Log.pdf>, from the facilitator page to accurately report your hours.

6. If Continuing Education Doesn't Meet Requirements

- CE hours from unapproved sources or missing required certificate details **will not be accepted**
- If you encounter a provider whose CE doesn't comply, notify them of OAR 333-333-3300(6)

7. Questions or Support

If you have questions or need assistance, reach out via email at OHA.Psilocybin@oha.oregon.gov.

Ensuring CE comes from approved sources and includes all required documentation protects your credential and maintains the integrity of the psilocybin facilitator program. Thank you for staying compliant and committed to best practices!
