OREGON HEALTH AUTHORITY

February 24, 2026

Dear Licensed Service Centers,

To support 303 data reporting, OPS has made several improvements to TLC. Starting with 2026 Q1 data reporting, the submission status of both 303 Client Data and 303 Service Center Data will remain visible after data is submitted and after the reporting window closes. After the sets of data are submitted, the status below each data set will now say "Submitted" in green text.

To provide additional clarity, OPS has updated the 303 Reporting Guide for Service Centers to reflect these improvements. The guide now includes a table outlining the reporting window dates, additional descriptions and TLC screenshots.

When reporting your 2026 data, please refer to the most recent 303 Reporting Guide for Service Centers. As always, you can message the OPS Compliance Program in TLC if you have any questions about meeting 303 reporting requirements.

Thank you,
The Oregon Psilocybin Services team
