

**Archive Oregon Psilocybin Services (OPS) Dashboard Page:
2025 Q4 (October 1, 2025 to December 31, 2025)**

This document contains screenshots of the OPS Data Dashboard for Q4-2025 (October 1, 2025 to December 31, 2025). The purpose of this document is to archive and make previously published dashboard pages available to the public. When text is presented which must be scrolled to access on the reports, there will be multiple screenshots of that page to capture the full text from the dashboard page.

Please contact OHA.Psilocybin@oha.oregon.gov with any questions about the dashboard or general inquiries about OPS.

Oregon Psilocybin Services Data Dashboard Licensing Page

Version 2.3

Overview

OPS first began accepting applications for Facilitator, Manufacturer, Service Center, and Laboratory licenses and Worker Permits on January 1, 2023. For more information about specific license types, please visit the [OPS homepage](#).

This page was created to present licensing data as directed in ORS 475A.374, including the number of licenses issued by license type (1a), number of applications submitted by license type (1b), and the number of denials and reasons for denials (1b).

Licensing Tables

The Licensing Tables include data on the total number of applications received by OPS, the number of licenses issued (approved status), and the total number of license denials, all by license type. All denials are final orders which are posted to the [Oregon Psilocybin Services – Final Orders webpage](#). Detailed information about reasons for denials can be found in the OPS rules [333-333-4130](#). Licensing Tables also include the number of license renewals, by license type.

Training Program Tables

Psilocybin training programs must have their curriculum approved by Oregon Psilocybin Services (OPS) and they must be licensed by the Higher Education Coordinating Commission (HECC) or receive a determination from HECC that a license is not required. Training Program tables present data regarding Training Program curriculum approvals. To see a list of approved training programs, visit the [Current Active Psilocybin Training Programs](#) page.

View Current Data vs Historical Totals

Without adjusting the date slider, the tables will display the current licensing totals for OPS by default. If you are interested in viewing licensing values for a specific date or date range, adjust the dates on the date slider and the data displayed on the page will adjust to show historical totals for the specified dates.

Oregon Psilocybin Services Data Dashboard Licensing Page

Version 2.3

Methods and Limitations

Licensing Method

Statuses on this page directly reflect statuses in the Training program, Licensing, and Compliance (TLC) system which are updated by OPS staff. See the Key on each data table page for descriptions of each status included.

Table 1 of the Licensing Tables charts the submission, review, and approval of license and permit applications to OPS. Statuses presented do not include applications which have been submitted but have not yet begun to be reviewed or assigned to OPS staff members. Table 2 of the Licensing Tables presents data on licenses and permits once approvals have been issued and following them until expiration, renewal, or administrative action.

Licensing Limitations

Statuses will appear on the licensing tables once at least one license holds that status. Licenses that are "renewed" status will also have "approved" status, therefore the totals will only count a renewed license as a single license in the tables on this page.

TLC development is ongoing and its functionality has been evolving which is reflected in the data. Certain development was not available in 2023 when applications for licenses began. Internal licensing and compliance processes have also developed over time and new legislative and rule changes will have an impact on license and applications statuses and timelines from the start of the program to present day. Keep these considerations in mind when viewing historical totals using the date slider. All updates to TLC that impact data in the present report will be noted here as they are made as changes made to the system will not retroactively apply to the data.

OPS does not track the lifecycle of a specific license but instead tracks the number of licenses which have been in a specific status.

Please note that many licenses were issued in 2024 therefore renewals for those licenses are not expected until 2025.

Oregon Psilocybin Services Data Dashboard Licensing Page

Version 2.3

program to present day. Keep these considerations in mind when viewing historical totals using the date dropdown: updates to the data impact data in the present report will be noted here as they are made as changes made to the system will not retroactively apply to the data.

OPS does not track the lifecycle of a specific license but instead tracks the number of licenses which have been in a specific status.

Please note that many licenses were issued in 2024 therefore renewals for those licenses are not expected until 2025.

Training Program Curriculum Approval Method

Under ORS 475A, psilocybin facilitator training programs must receive curriculum approval through OPS. Training programs may also be subject to licensure, exemption, and regulation through the Higher Education Coordinating Commission (HECC). For more information, please visit the [OPS Training Program Information webpage](#).

Table 1 of the Training Program Curriculum Approval Tables charts the submission, review, and approval of training program curriculum approval applications to OPS. Statuses presented do not include applications which have been submitted but have not yet begun to be reviewed or assigned to OPS staff members. Table 2 of the Training Program Curriculum Approval Tables presents data on training program curriculum approvals once approvals have been issued and following them until expiration, renewal, or administrative action.

Training Program Curriculum Approval Limitations

Statuses will appear on the training program tables once at least one application for training program curriculum approval holds that status.

Beginning January 1, 2025, the term for training program curriculum approval has been changed from five years to one year. This change is not retroactive. For applications approved prior to January 1, 2025, training program curriculum approval still has a term of five years from the date of initial approval.

Oregon Psilocybin Services Data Dashboard Licensing Page

Version 2.3

OPS Application Status Diagram

Note. This diagram shows the possible statuses an Oregon Psilocybin Services application or license could hold and includes all of the statuses displayed in the Licensing Tables.

Key:

- Approved:** means a license has been issued to the applicant. Once a license has been issued, the licensee may begin exercising the privileges of the license for the duration of one year from the approval date.
- Closed:** a license application that has been closed due to incomplete status.
- Denied:** a final order has been issued that denies the license application.
- Withdrawn:** a license application that has been withdrawn by the applicant.
- Expired:** a license that has expired and is no longer valid.
- Renewed:** a renewal license that has been issued.
- Revoked:** a final order has been issued that revokes a license, permit, or training program curriculum approval.
- Surrendered:** a license has been surrendered by a licensee and is no longer valid. OPS must approve requests for surrender.

Dashboard Navigation

Adjust Dates: The data presented on the page will adjust to the date ranges you select on the date slider. To view all time totals, be sure to check that the dates selected include the present day or “clear selection.”

Interactive Features: These dashboards are interactive. In addition to being able to select specific categories from menus, you can also click on a category or date on a table and the rest of the data on the page will adjust to reflect that category. If you would like to return to the original view, click outside of the tables on the page or reset page.

Limited Drilling: There will be limited ability to drill into the data on certain pages when required to protect the confidentiality of the individuals involved.

View Different Report Pages: Navigate to different report pages by clicking on the gray report page tabs at the bottom of the report.

Issues Viewing the Dashboard Page: Please allow a few moments for the dashboard pages to load. Due to system limitations, the interactive dashboard tables can only be viewed from within the United States.

Version 2.3

Overview

Under ORS 475A, OPS will investigate complaints, incidents, or concerns related to statute and rule violations that occur on licensed premises and during the provision of psilocybin services. Investigations are to gather evidence and may not necessarily result in administrative actions.

Licensees, clients, and any member of the public can [File a Complaint](#) on the OPS website, by phone, or by email. Our section investigates complaints, incidents, or concerns related to safety issues or statute and rule violations that occur on licensed premises and during the provision of psilocybin services.

Administrative sanctions depend on the severity of violation and may include restriction of a license, civil penalties, or suspension or revocation of a license. ORS 475A.374 requires reporting of disciplinary actions taken by OPS. Final orders for administrative violations are published on our website under the OPS Data Dashboard. To see all Final Orders issued by OPS, please visit the [Oregon Psilocybin Services – Final Orders webpage](#).

Compliance Tables

The compliance page contains information regarding the number of complaints received, investigations opened, and total number of disciplinary actions by license type and action taken.

View Current Data vs Historical Totals

Without adjusting the date slider, the tables will display the current compliance totals for OPS by default. If you are interested in viewing values for a specific date or date range, adjust the dates on the date slider and the data displayed on the page will adjust to show historical totals for the specified dates.

Archived Quarters

To view tables from previous quarters, visit the [Archive page](#) on the OPS Data Dashboard page. This will have detailed information

Version 2.3

Methods and Limitations

Method

Number of complaints are sourced from the Training program, Licensing, and Compliance (TLC) system. Final Orders for license denials or administrative actions will appear on this page once they have been issued and posted to the [Final Orders](#) page and updated here each quarter.

Limitations

The number of complaints does not include internally-generated compliance cases, however disciplinary actions may result from internal or external complaints, violation concerns, or auditing.

Final orders are categorized based on type of administrative action, however, to understand the details please reference the Final Orders on the [Final Orders](#) page.

TLC development is ongoing and its functionality has been evolving which is reflected in the data. Certain development was not available in 2023 when applications for licenses began. Internal licensing and compliance processes have also developed over time and new legislative and rule changes will have an impact on data presented in the compliance tables. Keep these considerations in mind when viewing historical totals using the date slider. All updates to TLC that impact data in the present report will be noted here as they are made as changes made to the system will not retroactively apply to the data.

Oregon Psilocybin Services Data Dashboard Compliance Page

Version 2.3

Complaint and Investigation Tables

Table 1. Number of Complaints Received by Oregon Psilocybin Services

Table 2. Number of Investigations Conducted by Oregon Psilocybin Services

Date Complaint Received

Values displayed in Table 1 represent totals for the date range displayed on the Date Complaint Received slider above.

Key:

Complaint: any complaint received by a member of the public through the OPS Complaint Form, by email, or by telephone.
Investigation: conducted by OPS compliance staff to investigate potential violations of ORS 475A or OAR 333-333.

Note. OPS will investigate complaints, incidents, or concerns related to safety issues or statute and rule violations that occur on licensed premises and during the provision of psilocybin services. Once we receive a complaint, OPS will determine if there are potential violations of ORS 475A or OAR 333-333 and whether the Oregon Health Authority is the agency with jurisdiction to take further action. Oregon Psilocybin Services will only investigate violations of ORS 475A or ORS 333-333. Complaints related to criminal activity are a matter for law enforcement.

During an investigation, Oregon Psilocybin Services (OPS) will conduct interviews with the complainant, witnesses, and licensees involved. If needed, we will also interview clients. OPS will request all relevant records and any security camera footage, if available. If statute or rule violations are discovered and there is enough evidence to prove the violation, the licensee will be issued a notice of a proposed administrative action that proposes some disciplinary action and/or civil penalty.

Administrative sanctions depend on the severity of violation and may include restriction of a license, civil penalties, or suspension or revocation of a license. A licensee will have between 20-30 days to request a hearing, depending on what the proposed sanction is. If requested, the hearing would be conducted by an Administrative Law Judge (ALJ). After the hearing, the ALJ would issue their proposed order and then OPS would issue a final order.

Version 2.3

Disciplinary Action Tables: All Time Totals

Table 1. Disciplinary Actions by License Type: All Time Totals
(Beginning January 1, 2023 through December 31, 2025)

License Type	Civil Penalty	Restriction	Revocation	Settlement Agreement (Surrender)	Suspension	Total
		0	0		0	0
Facilitator	0	4			3	7
Laboratory	0					0
Manufacturer	0					0
Service Center		17				17
Training Program	0		5			5
Worker Permit	0	1			3	4
Total	0	22	0	5	6	0

Key:
Disciplinary actions: means any Final Order issued to a licensee, permitted worker, or training program under ORS chapter 183 due to a violation of ORS chapter 475A or OAR 333-333.
Applicant: an individual or entity who applies for a license or permit under ORS chapter 475A.
Licensee: an individual entity that has been issued a license under ORS chapter 475A.
Facilitator: licensed individual who support clients through a non-directive approach to psilocybin services, including preparation, administration, and integration sessions.
Laboratory: the licensed premises that tests psilocybin products for species identification, product potency, and solvent testing.
Manufacturer: the licensed premises where indoor cultivation or processing of natural psilocybin products takes place.
Service Center: the licensed premises where administration sessions take place and the only location where clients can legally purchase and consume psilocybin in Oregon.
Training program: a psilocybin facilitator training program that has received

Note. To see all Final Orders issued by OPS, please visit the [Oregon Psilocybin Services – Final Orders webpage](#). To view tables from previous quarters, visit the [Archive page](#) on the OPS Data Dashboard page.

Dashboard Navigation

Adjust Dates: The data presented on the page will adjust to the date ranges you select on the date slider. To view all time totals, be sure to check that the dates selected include the present day or “clear selection.”

Interactive Features: These pages are interactive. In addition to being able to select specific categories from menus, you can also click on a category or date on a table and the rest of the data on the page will adjust to reflect that category. If you would like to return to the original view, click outside of the tables on the page or reset page.

Limited Drilling: There will be limited ability to drill into the data on certain pages when required to protect the confidentiality of the individuals involved.

View Different Report Pages: Navigate to different report pages by clicking on the gray report page tabs at the bottom of the report.

Issues Viewing the Dashboard Page: Please allow a few moments for the dashboard pages to load. Due to system limitations, the interactive dashboard tables can only be viewed from within the United States.

Oregon Psilocybin Services Data Dashboard Safety Page

Version 2.3

Overview

Oregon Psilocybin Services (OPS) rules support client safety in many ways, including rules on facilitator conduct, client safety and support planning, transportation planning, informed consent, client bill of rights, duty to contact emergency services and other requirements.

Under OAR 333-333, facilitators and service centers are required to make reasonable efforts to resolve any activity or conditions on the licensed premises that endangers the safety of any person present on the premises; however, if the activity or conditions cannot be resolved, service centers must contact emergency services and notify OPS. Although this reported event is for internal use by OPS for safety and compliance purposes, OPS shares the number of reports to emergency services and number of psilocybin products sold in the regulated model for transparency.

Session Information Tables

SB 303 required collection of the information reported below, including data regarding administration sessions (e.g., total number of clients served, individual administration sessions, group administration sessions) as well as averages computed from average calculations provided by service centers (average number of clients participating in group administration sessions, average number of times per client that psilocybin services were received, and average dosage in mg).

OPS has sourced additional data from the TLC system in order to provide a more comprehensive picture regarding client safety including total the number of psilocybin products sold in regulated model.

Service center locations will vary, offering a range of experiences to clients, such as individual, group, or outdoor administration sessions. For group administration sessions, client-facilitator ratios are required to support client safety. Group administration sessions may not exceed a total of 25 clients, regardless of the number of facilitators present. A service center may not host administrative sessions for more than 100 clients at any given time regardless of whether the clients are participating in separate individual or group administration sessions.

Oregon Psilocybin Services Data Dashboard Safety Page

Version 2.3

Clients must remain at the licensed service center for the minimum duration of time depending on the dosage they consume and may be required to stay longer if they are still experiencing the effects of consuming psilocybin.

Client Denial Tables

SB 303 required collection of the information reported below, including number of individuals who were denied psilocybin services and the reasons for those denials.

Reasons for service denial are measured as required by SB 303, including having taken the prescription drug Lithium in the past 30 days, ideation of causing harm to self or others, being previously diagnosed or treated for active psychosis, and other reasons listed in the client denial tables.

Reaction Information Tables

In accordance with ORS 475A.372, service centers must report the number of Adverse Reactions (medical, behavioral, severe medical, severe behavioral) and 72-hour post-session reactions, which are reported on this page.

OPS has sourced additional data from the TLC system in order to provide a more comprehensive picture regarding client safety in the reaction information table, including number of reports of emergency services being contacted by licensed facilitators and service center representatives and number of product safety recalls in regulated model.

Site Inspection Tables

A site inspection is conducted by Oregon Psilocybin Services staff to observe and review an applicant's proposed license premises to ensure that it meets all rules requirements for the license applied for as per OAR 333.333. Annual site inspections are required for all premises-based licenses, including manufacturer, laboratory, and service center license applications and renewal applications.

Archived Quarters

To view tables from previous quarters, visit the [Archive page](#) on the OPS Data Dashboard page. This will have detailed information

Oregon Psilocybin Services Data Dashboard Safety Page

be required to stay longer if they are still experiencing the effects of consuming psilocybin.

Client Denial Tables

SB 303 required collection of the information reported below, including number of individuals who were denied psilocybin services and the reasons for those denials.

Reasons for service denial are measured as required by SB 303, including having taken the prescription drug Lithium in the past 30 days, ideation of causing harm to self or others, being previously diagnosed or treated for active psychosis, and other reasons listed in the client denial tables.

Reaction Information Tables

In accordance with ORS 475A.372, service centers must report the number of Adverse Reactions (medical, behavioral, severe medical, severe behavioral) and 72-hour post-session reactions, which are reported on this page.

OPS has sourced additional data from the TLC system in order to provide a more comprehensive picture regarding client safety in the reaction information table, including number of reports of emergency services being contacted by licensed facilitators and service center representatives and number of product safety recalls in regulated model.

Site Inspection Tables

A site inspection is conducted by Oregon Psilocybin Services staff to observe and review an applicant's proposed license premises to ensure that it meets all rules requirements for the license applied for as per OAR 333.333. Annual site inspections are required for all premises-based licenses, including manufacturer, laboratory, and service center license applications and renewal applications.

Oregon Psilocybin Services Data Dashboard Safety Page

Version 2.3

Methods and Limitations

Method

Number of products recalled due to safety reflects the number of psilocybin products sold within the regulated model in Oregon. This does not reflect psilocybin products sold in the unregulated market.

Under OAR 333-333, licensed facilitators may decline services to clients for any reason but may also refer clients to other licensed facilitators that may have more experience serving specific needs.

OPS rules require safe manufacturing processes based on existing agricultural and food safety standards. Production of psilocybin by chemical synthesis and use of adulterants is prohibited. Allowable product types include dried, whole mushrooms; ground, homogenized mushrooms; extracts; or edible food products. OPS rules measure the potency of psilocybin in milligrams. This measurement helps determine how long an administration session may last to support client safety. Manufacturers label their products with potency information based on required test results.

ORS 475A requires products to be tracked in a product tracking system, beginning when detectable psilocybin is cultivated and continuing through the life of the product. Product tracking ensures accountability, helps prevent diversion, creates public health safety for product recalls, and helps to prevent interstate commerce.

Limitations

Safety data are not limited to this dashboard page. For example, some data on the demographics pages may illuminate aspects of safety such as cultural or psychological safety that are not included on the present page.

It is important to recognize that there may be other reasons for client service denials that could contribute to a higher number of denials for other reasons being reported relative to specific reasons listed.

The number of products sold may include secondary doses and is dependent on accurate reporting by licensees. This value depends

Oregon Psilocybin Services Data Dashboard Safety Page

Version 2.3

does not reflect psilocybin products sold in the unregulated market.

Under OAR 333-333, licensed facilitators may decline services to clients for any reason but may also refer clients to other licensed facilitators that may have more experience serving specific needs.

It is important to recognize that there may be other reasons for client service denials that could contribute to a higher number of denials for other reasons being reported relative to specific reasons listed.

The number of products sold may include secondary doses and is dependent on accurate reporting by licensees. This value depends upon accurate reporting of product sales by licensees and licensee representatives. Interpretation of average dosage is also affected both by the wide range of dosages from very low subperceptual doses to higher dosages for administration sessions, as well as accurate computing and reporting by licensees.

Oregon Psilocybin Services Data Dashboard Product and Sales Page

Overview

Psilocybin products may only be sold and transferred to clients by licensee representatives of a service center. Licensee representatives of a service center may only sell and transfer products to clients consistent with dosage, product type and method of consumption determined by a facilitator and client during the client's preparation session.

OPS has sourced additional data from the TLC system in order to provide a more comprehensive picture regarding client safety including the data presented in the Product and Sales Tables.

ORS 475A requires products to be tracked in a product tracking system, beginning when detectable psilocybin is cultivated and continuing through the life of the product. Product tracking ensures accountability, helps prevent diversion, creates public health safety for product recalls, and helps to prevent interstate commerce.

Clients must remain at the licensed service center for the minimum duration of time depending on the dosage they consume and may be required to stay longer if they are still experiencing the effects of consuming psilocybin.

Product and Sales Tables

Data reported on this page include the total number of psilocybin products sold and total sales in USD by product type and dosage. Refunded sales can also be viewed by selecting "View Refunded Sales Only" on the report menu.

View Current Data vs Historical Totals

Without adjusting the date slider, the tables will display the current product sales totals by default. If you are interested in viewing values for a specific date or date range, adjust the dates on the date slider and the data displayed on the page will adjust to show historical totals for the specified dates.

Oregon Psilocybin Services Data Dashboard Product and Sales Page

Methods and Limitations

Method

OPS rules require safe manufacturing processes based on existing agricultural and food safety standards. Production of psilocybin by chemical synthesis and use of adulterants is prohibited. Allowable product types include dried, whole mushrooms; ground, homogenized mushrooms; extracts; or edible food products. OPS rules measure the potency of psilocybin in milligrams. This measurement helps determine how long an administration session may last to support client safety. Manufacturers label their products with potency information based on required test results.

A service center licensee or licensee representative are prohibited from allowing a client to consume more than a total of 50 mg of psilocybin analyte, including initial and secondary doses, during an administration session or during a 24-hour period. Both initial doses and secondary doses may be transferred and consumed in multiple packages. For example, a dose consisting of 20 mg of psilocybin analyte could be transferred to a client in the form of two packages containing 10 mg of psilocybin of analyte. For additional information regarding potency of psilocybin products, see the OPS [Psilocybin Product Potency Information Document](#).

When psilocybin products are sold, the product type, dosage, and other product information is recorded in TLC-PTS by licensees and designated permitted workers. The accuracy of the data depends on the accuracy of the information entered by licensees and permitted workers.

Limitations

OPS does not have to the authority to set or regulate psilocybin product prices, with the exception of the statute which prohibits free or discounted products in ORS 475A.

If a client does not consume their secondary dose and if it is unopened and unused it can be returned and refunded to the service center. These sales are removed from totals unless selections are made from refund menu of this report. To view only refunded sales, select "View Refunded Sales Only" on the report menu.

Oregon Psilocybin Services Data Applicant/Licensee Demographics Page

Version 2.3

Overview

The Applicant/Licensee Demographic Page provides insight into different aspects of the diversity of the people who apply for or are issued Facilitator, Manufacturer, Laboratory, and Service Center licenses.

SB 303 requires the collection of Racial Identity, Ethnicity, and Language, (REAL) and Sexual Orientation, Gender Identity (SOGI) data, but not disability data for applicants and licensees.

REAL and SOGI are sets of standardized questions and data. In 2013, the Oregon legislature passed HB 2134, which requires Oregon Health Authority and Department of Human Services to adopt by rule, using advisory committee, uniform standards for collection of data on race, ethnicity, preferred languages and disability status in surveys and in all programs in which authority or department collects, records or reports such data. In early 2014, REAL standards were established after extensive public engagement with community members, a series of public hearings, and opportunities for public comment. In 2021, the Oregon legislature passed House Bill 3159, which requires coordinated care organization, health care provider or health insurer to collect from patient, client or member data on race, ethnicity, preferred spoken and written languages, disability status, sexual orientation and gender identity. For more information about these bills and data collection standards, visit the [OHA REALD & SOGI page](#).

SB 303 demographic data collection formats follow OHA REAL and SOGI standards to the extent permitted by law, which set the demographic data collection standards for OPS. All questions were a check-box format, therefore data reported below indicate the total number of individuals who “checked the box” for that question.

Oregon Psilocybin Services Data Applicant/Licensee Demographics Page

Version 2.3

Methods and Limitations

Method

While the data below represent the diversity of people currently seeking or receiving licenses from OPS, it does not reflect the systemic, legal, or operational challenges that prevent people from having the necessary capital to apply for or receive a license.

Most licensees complied and completed their REAL-SOGI data form by March 1, 2025, but there are missing responses from some licensees. Due to data privacy concerns, missing responses may limit the availability of some self-reported data.

While applicants and licensees are unable to “opt-out” of completing the SB 303 Data Form, every question has a response option: “I don’t want to answer.” For more information about specific data reporting procedures from OPS, view the Data Confidentiality page from the Dashboard Overview.

Limitations

OPS complies with intersecting laws to meet standards for REALD and SOGI data collection, however limitations may exist related to the response options available for certain categories.

Some questions allow respondents to select only one response, so the total number of responses will not be greater than the number of respondents. Other questions allow respondents to select all responses which apply to them, which allows for the total number of responses to be greater than the number of respondents. This distinction will be noted on each table.

Oregon Psilocybin Services Data Applicant/Licensee Demographics Page

Version 2.3

Applicant/Licensee All Time Totals Snapshot: January 1, 2025 to December 31, 2025

All Time Totals: Racial Identity

All Time Totals: Gender Identity

All Time Totals: Sexual Orientation

All Time Totals: Preferred Spoken Language

All Time Totals: Preferred Written Language

Note. Response options which were not reported to protect confidentiality for all available quarters are not presented on this page. All possible response options for each question are broken down by quarter on the tables page for that question. For racial identity, sexual orientation, and gender identity, values represent the count of total applicants and licensees who selected each total response category for that quarter, therefore total responses may be greater than the total number of applicants and licensees who responded.

Dashboard Navigation

Adjust Dates: The data presented on the page will adjust to the date ranges you select on the date slider. To view all time totals, be sure to check that the dates selected include the present day or “clear selection.”

Interactive Features: These pages are interactive. In addition to being able to select specific categories from menus, you can also click on a category or date on a table and the rest of the data on the page will adjust to reflect that category. If you would like to return to the original view, click outside of the tables on the page or reset page.

Limited Drilling: There will be limited ability to drill into the data on certain pages when required to protect the confidentiality of the individuals involved.

View Different Report Pages: Navigate to different report pages by clicking on the gray report page tabs at the bottom of the report.

Issues Viewing the Dashboard Page: Please allow a few moments for the dashboard pages to load. Due to system limitations, the interactive dashboard tables can only be viewed from within the United States.

Oregon Psilocybin Services Data Dashboard Client Demographic Page

Version 2.3

Overview

The Client Demographic Page provides insight into different aspects of the diversity of the people who seek or receive psilocybin services in Oregon.

REAL and SOGI are sets of standardized questions and data. In 2013, the Oregon legislature passed HB 2134, which requires Oregon Health Authority and Department of Human Services to adopt by rule, using advisory committee, uniform standards for collection of data on race, ethnicity, preferred languages and disability status in surveys and in all programs in which authority or department collects, records or reports such data. In early 2014, REAL standards were established after extensive public engagement with community members, a series of public hearings, and opportunities for public comment. In 2021, the Oregon legislature passed House Bill 3159, which requires coordinated care organization, health care provider or health insurer to collect from patient, client or member data on race, ethnicity, preferred spoken and written languages, disability status, sexual orientation and gender identity. For more information about these bills and data collection standards, visit the [OHA REALD & SOGI page](#).

Client annual income, age, and county of residence, and reasons for psilocybin service use are also reported on this page and are all from the 303 Client Data Form. The [303 Client Data Form](#) can be viewed on [the OPS SB 303 and Data Collection Information page](#).

To view previous quarters, please visit the [Archive page](#) from the [OPS Data Dashboard](#) webpage.

Oregon Psilocybin Services Data Dashboard Client Demographic Page

Version 2.3

Methods and Limitations

Method

SB 303 demographic data collection follow OHA REALD and SOGI standards to the extent permitted by law, which set the demographic data collection standards for OPS. All questions were a check-box format, therefore data reported below indicate the total number of clients who “checked the box” for that question (with responses from clients who opted out of reporting their data to OPS removed from the final count). Additionally, every question has a response option: “I don’t want to answer.”

For more information about specific data reporting procedures from OPS, view the Data Confidentiality page from the Dashboard Overview.

Limitations

OPS complies with intersecting laws to meet standards for REALD and SOGI data collection, however limitations may exist related to the response options available for certain categories.

Annual household income does not specify household size and does not account for net worth.

Client location does not provide more granular information of other states within US and outside US.

Some questions allow respondents to select only one response, so the total number of responses will not be greater than the number of respondents. Other questions allow respondents to select all responses which apply to them, which allows for the total number of responses to be greater than the number of respondents. This distinction will be noted on each table.

Service center non-compliance reporting SB 303 data has resulted in inconsistencies in completeness of data reported to OPS. Final orders regarding data reporting can be found on the [Oregon Psilocybin Services – Final Orders webpage](#).

Dashboard Navigation

Adjust Dates: The data presented on the page will adjust to the date ranges you select on the date slider. To view all time totals, be sure to check that the dates selected include the present day or “clear selection.”

Interactive Features: These pages are interactive. In addition to being able to select specific categories from menus, you can also click on a category or date on a table and the rest of the data on the page will adjust to reflect that category. If you would like to return to the original view, click outside of the tables on the page or reset page.

Limited Drilling: There will be limited ability to drill into the data on certain pages when required to protect the confidentiality of the individuals involved.

View Different Report Pages: Navigate to different report pages by clicking on the gray report page tabs at the bottom of the report.

Issues Viewing the Dashboard Page: Please allow a few moments for the dashboard pages to load. Due to system limitations, the interactive dashboard tables can only be viewed from within the United States.
