

## Connecting Priorities to Framework Best Practices *Achieving "Community Conditions" to improve community health*

Select up to 5 priorities identified through the Community Assessment Process.

For each priority discuss the following 3 questions.

- A. Why was this identified as a priority? Discuss how the need was demonstrated through the community assessment, and how community readiness/will may have been a factor, and any other reasons.
- B. From the *Framework Report*, which Community Condition statement (goal) does this priority fall within?
- C. Which Best/Promising Practice(s), listed under the selected Community Condition, would help address the priority?
