### Gateway Automated Querying

Gateway access went live January of 2018. These plots show querying activity on both the AWARxE system and through the Gateway.

- Oregon use of the Gateway by Emergency Departments has surpassed Prescriber and Pharmacist use of the AWARxE system.
- Gateway use dominated by out of state (OOS) queries from St. Luke's in Idaho (153,086 queries in March).
- Automated query of the system does not allow us to see whether clinicians view PDMP information.
