

# Data2Action Project: Supporting Decision-Making Related to Substance Use Prevention, Service Expansion, and Overdose Prevention

Gracelyn Cruden, PhD — Chestnut Health Systems, Lighthouse Institute

## Grant Information

- Funder: National Institute on Drug Abuse  
HEAL Data2Action Initiative
- Grant type: **Phased (2-part)**
  - **Phase 1** = Year 1
    - **Learning**, pilot phase (09/2023 – 08/2024)
  - Phase 2 = Years 2-5
    - State-wide trial

## Phase 1 questions

- What decisions at local (county) and state levels could be better supported by data?
- What data do people most want to support those decisions?
- How do people want to interact with data to inform their decisions?
- Can we obtain the data from someone else (OHA DOJ, etc.) or do we need to collect it?
  - Budgeted for generating service-recipient data

# Milestones\* and Timeline

- 1) List of **prioritized data** and **data sources** that could support decisions made at state and **local** levels related to:
  - Substance use disorder prevention
  - Substance use service expansion (filling gaps)
  - Overdose prevention
  - Identifying policy impacts
- 2) **Prototypes of products** to disseminate data to decision makers
  - Dashboard? Issue Brief? Simulation model?
- 3) **Refined processes for sharing and collecting data**
- 4) Refined process for co-identifying priorities and co-designing data products
  - ~ **4-6 sessions** to prioritize data, co-design data products
  - First session ~ **November**

To learn today

How can we be complementary to OSPTR's work?

Would anyone here like to be involved and learn more, or recommend someone to include?

Thank you!!
