2) Tobacco Retail Environment: updates on the Tobacco Retail Evaluation, Tobacco 21 and compliance checks – Sarah Hargand, Tara Weston and Randy Westbrook	1:05-1:50 (45)
<p><u>Objective:</u> Provide overview and next steps for the Tobacco Retail Evaluation, Tobacco 21 and tobacco retail compliance inspections.</p> <p><u>Background:</u> The retail environment is an important setting for tobacco prevention policy. The tobacco industry spends \$1 million an hour on marketing and promotion of their products in retail stores. All local public health authorities are funded to work on tobacco prevention, which includes working in the tobacco retail environment. To better understand essential elements for effective local tobacco retail policies, the Oregon Health Authority’s Public Health Division (OHA-PHD) is conducting a Tobacco Retail Evaluation. Additionally, an evaluation is underway to understand the effects of the recent law raising the required minimum age for a person to legally purchase tobacco products or inhalant delivery systems from 18 to 21. Ensuring tobacco retailers are in compliance with laws that prohibit the sale of tobacco products to underage persons through tobacco retail inspections is crucial to tobacco retail environment policy. OHA-PHD manages two state-level tobacco retail inspection programs- Synar and Enforcement Inspections.</p>
