

Cigar Bar Secondhand Smoke Form

"The debate is over. The science is clear: secondhand smoke is not a mere annoyance, but a serious health hazard that causes premature death and disease in children and nonsmoking adults."

— Vice Admiral Richard H. Carmona, MD, MPH, FACS United States Surgeon General

Exposure to secondhand smoke increases the risk for many of the same diseases that affect smokers, such as stroke, heart disease, certain cancers, asthma attacks, and premature death. Pregnant women should not smoke tobacco products or breathe secondhand smoke.

I, _____, know that I will be exposed to secondhand smoke while working at _____. I have read the above statements describing the health risks associated with exposure to secondhand smoke. I understand that exposure to secondhand smoke increases my risk of stroke, heart disease, certain cancers, asthma attacks, and premature death. Despite these risks, I am willing to work at

_____.
