Authorized User Agreement – Individual School/Child Care Facility User

ALERT Immunization Information System (IIS) is a statewide registry that records vaccinations administered in Oregon. State law and Oregon Administrative Rules cover collection and release of information in ALERT IIS. By law, information is confidential and can only be shared with authorized users, including an individual’s health care provider, school, childcare facility, insurer, local health authority, the individuals themselves, their parents/guardians if the person is a minor, or the legal guardian of an adult. Though information is confidential, the law allows providers to share this immunization information with ALERT IIS without consent. Information from ALERT IIS may not be used in any way to penalize an individual or organization.

As a condition of receiving immunization information from ALERT IIS as an authorized user (defined in ORS 433.090), users must agree to the following:

- 1. Only access immunization information in ALERT IIS for individuals under their care.
2. Read and abide by the ALERT IIS Confidentiality Policy.
3. Abide by all security policies and procedures, including safeguarding user name(s) and password(s) against unauthorized use.
4. Permit the ALERT IIS Director to monitor and audit users’ use of the system.
5. Access records only under the user’s own user name and password.

Failure to abide by this agreement may result in immediate termination, suspension or revocation of access to ALERT IIS. Misuse of ALERT IIS data will be reported to the appropriate licensing body.
