Teen series ^h	n/a	n/a	28%	20%	23%	20%

* Rate not displayed for populations of fewer than 50 people in accordance with Oregon Public Health Division confidentiality policy

^a 13- to 17-year-old rates assessed as of May 1st of the given year

^b Source: ALERT Immunization Information System, Oregon Immunization Program

^c Tdap: Tetanus, diphtheria, and pertussis vaccine

^d HPV: Human papillomavirus vaccine

^e The number of doses required for HPV completion is determined by the age of initiation: 2 doses if initiated prior to the 15th birthday, 3 doses if initiated after the 15th birthday

^f Race and ethnicity categories are not mutually exclusive, one individual may contribute to one or more categories; values reflect HPV completion rates; vaccination rates only available 2017 - 2019

^g HPV completion by 13 years of age

^h Teen series for 13 year olds includes: 1 dose Tdap, 1 dose Meningococcal, and 2 doses HPV
