

IMMUNIZATION PRIMARY REVIEW SUMMARY

SECTIONS F, G, AND H

This page is due to the local health department no later than February 27, 2023. You can turn in this page early if all of your students are complete for vaccines or have exemptions.

Name of school or program:	Grades:
Name of person completing report:	Date of report:
Phone:	Email:

Fill out this page using the current immunization status of students. Do not include students enrolled after **January 11, 2023**.

How many students in grades K-12 were excluded on Exclusion Day? _____			
	Section F: Kindergarten	Section G: 7 th Grade	Section H: Full School Grades K-12 (including students in Sections F & G)
Total enrollment			
Students not counted			
Adjusted enrollment <i>(Total enrollment minus students not counted equals adjusted enrollment)</i>			
No record			
Medical exemptions			
Nonmedical exemptions			
How many nonmedical exemptions are from:			
• the online module			
• a health care practitioner			

For the children in the adjusted enrollment, fill in the number who have vaccines and exemptions	Kindergarten		7 th Grade		Full School K-12	
	Number with vaccines	Number with nonmedical exemptions	Number with vaccines	Number with nonmedical exemptions	Number with vaccines	Number with nonmedical exemptions
DTaP: <i>Grades K-6:</i> 5 doses, or 4 if the last dose is given on or after 4th birthday; or Tdap: <i>Grades 7-12:</i> 1 dose Tdap						
Polio: 4 doses, or 3 if the last dose is given on or after 4th birthday						
Varicella: 1 or more dose, or history of chickenpox disease						
MMR: 1 or more dose						
Measles: 2 doses						
Mumps						
Rubella						
Hepatitis B: 3 doses						
Hepatitis A: 2 doses						
All: Student has all vaccines or all non-medical exemptions						

Instructions for Primary Review Summary Page 4 — Sections F, G, H

Complete this form when you have all the student records updated, no later than 12 days after Exclusion Day. Fill out this form even if all the records have not yet been updated.

Only count the students you included on the Section A report who are still enrolled. Do not count new students. If students have left your school or facility since you turned in the initial report, do not count them in the follow-up report. These students will be counted next year.

If your school has students younger than kindergarten, only report them in Section E.

How many students in grades K-12 were excluded on Exclusion Day?:

This is the number of students in grades K-12 excluded at the start of school on Exclusion Day. Record the number of children younger than kindergarten who were excluded on Section E, Page 3.

Total enrollment: This is the total number of students enrolled in grades K-12.

Students not counted: Students who attend more than one school or facility and spend more time at the other site should be included in this number.

Adjusted enrollment: This is the total enrollment minus the students not counted.

No record: Students who have no immunization records or exemptions on file should be counted here. If all the records have been updated, this number should be zero.

Medical exemptions: This is any student that has a temporary or permanent medical exemption that has been approved by the local health department.

Nonmedical exemptions: Any student that has a nonmedical exemption, whether for one or all vaccines, should be counted here. Fill in the number of students with a nonmedical exemption that have documentation from the online vaccine education module and a health care practitioner.

Number with vaccines:

DTaP/Tdap, Polio, Varicella, MMR, Measles, Hepatitis B, Hepatitis A, and All:

Fill in the number of students who are complete for that vaccine (with the specified number of doses).

In the All category, fill in the number of students that are complete for all the vaccines required at their grade level. Include students with a history of disease or immunity documentation.

Number with nonmedical exemptions:

DTaP/Tdap, Polio, Varicella, Measles, Mumps, Rubella, Hepatitis B, Hepatitis A, and All:

Fill in the number of students who have a nonmedical exemption for each vaccine.

In the All category, fill in the number of students who have nonmedical exemptions for every vaccine required for their grade. *If a student has both the specified number of vaccines and an exemption for the vaccine, count the child in the vaccine category and do not count the student in the exemption category.* In the All category, count the number of students with nonmedical exemptions for all vaccines (and count these children in the individual vaccine categories also).

Once you have completed Section H, tear off the back (yellow) copy of the form. This information is also for your records and must be kept for one year. The top (white) copy of this form along with the copies of the other reporting forms need to be turned in to the health department by 12 days after Exclusion Day. Electronic copies may also be submitted to your local health department.
