*Drowning in Children: A Case-Based Review*

Beech Burns, MD, MCR

Associate Professor of Emergency Medicine

Oregon Health & Science University

[Register Here](#)

You will receive a confirmation email after registering. CME and CE available up to 30 days after session.

1. Understand the pathophysiology of drowning and the range of symptoms that can result
2. Characterize appropriate treatment for a drowning episode
3. Recognize consequences of drowning that can complicate resuscitation

Education sessions are recorded and posted on the [PRP Education page](#).

**Pediatric Readiness Education Series**

**Third Thursdays | March-December 2026 | 0800-0900**

[Register here](#) for this free, national monthly webinar series delivered as a collaborative effort between the EMSC Innovation and Improvement Center and the Texas Pediatric Readiness Education Series. The series provides evidence-based education and highlights quality improvement opportunities to support improved pediatric outcomes in emergency departments.

Each one-hour session features national experts and focuses on high-impact pediatric topics such as airway management, mental and behavioral health, traumatic brain injury, and pain and vital sign reassessment.

## Pediatric Disaster Response and Emergency Preparedness Course

[Register Here](#) for an in person 2-day course (16 hours)

### June 1 & 2 | 0800-1700

Kaiser Westside Medical Center  
2875 NE Stucki Avenue, Hillsboro, OR

### June 4 & 5 | 0800-1700

Good Shepherd Medical Center  
610 NW 11<sup>th</sup> Street, Hermiston, OR

The course addresses pediatric emergency planning and medical response considerations through a combination of lectures and small group exercises. Topics include introduction to pediatric response, pediatric emergency management, pediatric surge, children with access and functional needs, mass sheltering, triage and allocation of scarce resources, reunification, and decontamination. CE available.
