

Peds Room Cart Configuration

Peds Rooms 1-10 all have a similar cart for respiratory equipment, IV supplies, blood draws, and fluids. On the back of each cart hangs an Ambu bag of each size. On top of each cart is a sharps container, Sani Wipes, and tube gauze.

****When a bin in the cart is empty toss it on the top of the cart for refilling.***

Drawer 1

- Adult, Peds, Infant nasal cannulas
- Adult and peds non-re-breather masks
- Nebulizers
- Suction sputum collection container
