Program Element #10: Sexually Transmitted Diseases (STD) Client Services

OHA Program Responsible for Program Element:
Public Health Division/Center for Public Health Practice/HIV, STD and TB Section

1. **Description.** Funds provided under this Agreement for this Program Element may only be used in accordance with, and subject to, the requirements and limitations set forth below, to deliver Sexually Transmitted Diseases (STD) Client Services to protect the health of Oregonians from infectious disease and to prevent the long-term adverse consequences of failing to identify and treat STDs. Services may include, but are not limited to, case finding and disease surveillance, partner services, medical supplies, health care provider services, examination rooms, clinical and laboratory diagnostic services, treatment, prevention, intervention, education activities, and medical follow-up.

STDs are a significant health problem in Oregon, with over 22,000 new cases reported every year. STDs pose a threat to immediate and long-term health and well-being. In addition to increasing a person’s risk for acquiring and transmitting HIV infection, STDs can lead to severe reproductive health complications, including poor pregnancy outcomes. Protecting the population from communicable disease by reducing rates of gonorrhea and early syphilis is a public health priority and is included in the State Health Improvement Plan (http://www.oregon.gov/oha/ph/about/pages/healthimprovement.aspx).

This Program Element, and all changes to this Program Element are effective the first day of the month noted in Issue Date section of Exhibit C Financial Assistance Award unless otherwise noted in Comments and Footnotes of Exhibit C of the Financial Assistance Award.

2. **Definitions Specific to Sexually Transmitted Diseases (STD) Client Services.**
   a. **Reportable STDs:** A Reportable STD is the diagnosis of an individual infected with any of the following: Chancroid, Chlamydia, Gonorrhea, and Syphilis, as further described in Division 18 of OAR Chapter 333, and HIV, as further described in ORS Chapter 433.
   b. **In-Kind Resources:** Tangible goods or supplies having a monetary value that is determined by OHA. Examples of such In-Kind Resources include goods such as condoms, lubricant packages, pamphlets, and antibiotics for treating STDs. If the LPHA receives In-Kind Resources under this Agreement in the form of medications for treating STDs, LPHA must use those medications to treat individuals for STDs as outlined in Section 4.d. of this Program Element. In the event of a non-STD related emergency, with notification to the OHA STD program, the LPHA may use these medications to address the emergent situation. If the LPHA self-certifies as a 340B STD clinic site and receives reimbursement for 340B medications from OHA, they shall ensure these medications are used in accordance with the Health Resources and Services Administration (HRSA) Office of Pharmacy Affairs regulations regarding “340B Drug Pricing Program.”
   c. **Technical Assistance Resources:** Those services of OHA HIV/STD Prevention staff that OHA makes available to LPHA to support the LPHA’s delivery of STD Client Services, which include advice, training, problem solving and consultation in applying standards, protocols, investigative and/or treatment guidelines to STD case work, partner services follow-up, and STD Outbreak response.
   d. **STD Outbreak:** The occurrence of an increase in cases of previously targeted priority disease type in excess of what would normally be expected in a defined community, geographical area or season, and, by mutual agreement of the LPHA and OHA, exceeds the expected routine capacity of the LPHA to address.

3. **Alignment with Modernization Foundational Programs and Foundational Capabilities.** The activities and services that the LPHA has agreed to deliver under this Program Element align with Foundational Programs and Foundational Capabilities and the public health accountability metrics (if applicable), as follows (see Oregon’s Public Health Modernization Manual).
a. **Foundational Programs and Capabilities** (As specified in Public Health Modernization Manual)

b. The work in this Program Element helps Oregon’s governmental public health system achieve the following Public Health Accountability Metric:

Gonorrhea rates

c. The work in this Program Element helps Oregon’s governmental public health system achieve the following Public Health Modernization Process Measure:

1. Percent of gonorrhea cases that had at least one contact that received treatment; and
2. Percent of gonorrhea case reports with complete “priority” fields. As used herein, priority fields are defined as: race, ethnicity, gender of patient’s sex partners, HIV status or date of most recent HIV test, and pregnancy status for females of childbearing age (15-44).

4. **Procedural and Operational Requirements.** By accepting and using the Financial Assistance awarded under this Agreement and for this Program Element, LPHA agrees to conduct activities in accordance with the following requirements:

a. LPHA acknowledges and agrees that the LPHA bears the primary responsibility, as described in Divisions 17, 18, and 19, of Oregon Administrative Rules (OAR) Chapter 333, for identifying...
potential STD Outbreaks within LPHA’s service area, for preventing the incidence of STDs within LPHA’s service area, and for reporting in a timely manner (as in 6.a.) the incidence of Reportable STDs within LPHA’s service area.

b. LPHA will be reimbursed according to the following model for each new case of the following categories of syphilis infection documented in Orpheus for which LPHA provides STD Client Services:

1. Pregnant female syphilis case = $1,125
2. Female syphilis case of reproductive age (15-44) = $1,125
3. Male early syphilis case with female partner of reproductive age = $500

c. LPHA must provide or refer client for STD Client Services in response to an individual seeking such services from LPHA. STD Client Services consist of screening individuals for Reportable STDs and treating individuals infected with Reportable STDs and their sexual partners for the disease.

d. As required by applicable law, LPHA must provide STD Client Services including case finding, treatment (not applicable for HIV) and prevention activities, to the extent that local resources permit, related to HIV, syphilis, gonorrhea, and chlamydia in accordance with:

1. Oregon Administrative Rules (OAR), Chapter 333, Divisions 17, 18, and 19;
3. Oregon Revised Statutes (ORS), Chapters 431 & 433; and
4. Current “Centers for Disease Control and Prevention Sexually Transmitted Disease Guidelines,” which can be found at: [https://www.cdc.gov/std/treatment/](https://www.cdc.gov/std/treatment/).

e. OHA may provide, pursuant to this agreement, In-Kind Resources or Technical Assistance to assist LPHA in delivering STD Client Services. If LPHA receives In-Kind Resources under this Agreement in the form of medications for treating STDs, LPHA may use those medications to treat individuals infected with or suspected of having Reportable STDs or to treat the sex partners of individuals infected with Reportable STDs, subject to the following requirements:

1. The medications must be provided at no cost to the individuals receiving treatment.
2. LPHA must perform a monthly medication inventory and maintain a medication log of all medications supplied to LPHA under this Agreement. Specifically, LPHA must log-in and log-out each dose dispensed.
3. LPHA must log and document appropriate disposal of medications supplied to LPHA under this Agreement which have expired and thereby, prevent their use.
4. If the LPHA self certifies as a 340B STD clinic site and receives reimbursement for 340B medications from OHA, they must only use “340B medications” to treat individuals for STDs in accordance with the Health Resources and Services Administration (HRSA) Office of Pharmacy Affairs regulations regarding “340B Drug Pricing Program”.
5. If LPHA Subcontracts with another person to provide STD Client Services required under this Program Element, the In-Kind Resources in the form of medications received by LPHA from OHA must be provided, free of charge, to the Subcontractor for the purposes set out in this section and the Subcontractor must comply with all requirements related to such medications unless OHA informs LPHA in writing that the medications cannot be provided to the Subcontractor. The LPHA must document the medications provided to a Subcontractor under this section.

07/01/2020 (SFY21)
If LPHA receives In-Kind Resources under this Agreement in the form of condoms and lubricant, LPHA may distribute those supplies at no cost to individuals infected with an STD and to other individuals who are at risk for STDs. LPHA may not, under any circumstances, sell condoms supplied to LPHA under this Agreement. LPHA shall store condoms in a cool, dry place to prevent damage and shall check expiration date of condoms at least once annually.

5. **General Revenue and Expense Reporting.** In lieu of the LPHA completing an “Oregon Health Authority Public Health Division Expenditure and Revenue Report” located in Exhibit C of this Agreement, OHA will send a pre-populated invoice to the LPHA for review and signature on or before the 5th business day of the month following the end of the first, second, third and fourth fiscal year quarters. The LPHA must submit the signed invoice no later than 30 calendar days after receipt of the invoice from OHA. The invoice will document the number of pregnant female syphilis cases, female syphilis cases of reproductive age, and male early syphilis cases with a female partner of reproductive age for which the LPHA provided services in the previous quarter. Pending approval of the invoice, OHA will remit payment to the LPHA. Funds under this program element will not be paid in advance or on a 1/12th schedule.

6. **Reporting Requirements.**

   a. LPHA must review laboratory and health care provider case reports by the end of the calendar week in which initial laboratory or physician report is made. All confirmed and presumptive cases shall be reported to the OHA HIV/ STD/TB (HST) Program by recording the case in the Oregon Public Health Epi User System (Orpheus), the State’s online integrated disease reporting system.

   b. LPHA must submit data regarding STD Client Services, risk criteria and demographic information to OHA via direct entry into the centralized ORPHEUS database.

7. **Performance Measures.**

   LPHA must operate the STD Client Services program in a manner designed to make progress toward achieving the following Public Health Modernization Process Measure:

   a. Percent of gonorrhea cases that had at least one contact that received treatment; and

   b. Percent of gonorrhea case reports with complete “priority” fields.
