

DATE: April 22, 2026

TO: Hearing Attendees and Commenters –
Oregon Administrative Rules chapter 333, division 45 –
“Oregon Immunization Program - Purchase of yellow fever uniform
stamp”

FROM: Brittany Hall, Administrative Rules Coordinator

cc: Mimi Luther, Section Manager
Oregon Immunization Program

Amanda Timmons, Policy Analyst
Oregon Immunization Program

SUBJECT: Presiding Hearing Officer’s Report on Rulemaking Hearing and Public
Comment Report

Date of Hearing: April 15, 2026, via Microsoft Teams

Purpose of Hearing: The purpose of this hearing was to receive testimony regarding the Oregon Health Authority, Public Health Division, Oregon Immunization Program’s proposed permanent amendments to Oregon Administrative Rules in chapter 333, division 45 pertaining to the yellow fever vaccination program.

To prevent transmission of yellow fever, an often fatal, mosquito-transmitted disease endemic in sub-Saharan Africa and tropical rainforests in South America, countries may require travelers entering a yellow fever zone to show documentation of yellow fever vaccination. The required documentation is a standard vaccination document validated by a uniform yellow fever stamp. The

uniform stamp contains the vaccinator’s name, medical license number, country and state.

Federal regulation delegates issuing uniform yellow fever stamps to the states. The Oregon Health Authority is changing the process for yellow fever vaccination centers to obtain stamps. Currently, the Oregon Health Authority orders and mails a uniform stamp to every prescriber approved to administer yellow fever vaccine. The Oregon Health Authority does not receive federal or other grant funding to support purchasing stamps, and it is not required to be provided under federal regulations. If the rule change is implemented, the Oregon Health Authority will process the provider’s application and provide exact stamp specifications to prescribers to order their own personalized stamp from any supplier.

Hearing Officer: Brittany Hall

Testimony Received: No individuals provided testimony at the hearing.

Other Comments: One individual submitted written comments to the Oregon Health Authority within the period allotted for public comment, which closed at 5:00 PM on April 21, 2026. Written comments are attached to this report as EXHIBIT 1.

Summary of Comments: Written comments are in support of the proposed rule changes.

Agency Response: None

Hello,

I manage YF stamps on behalf of Costco pharmacies across 34 states and am in full support of the proposed change to require providers to order the stamp.

A few states have worked with this vendor to set up a template so that all we have to do is add the provider license #: [PSI "HD" Custom Stamps](#) In other states where we order the stamp, I use PSI-1444 and create the template myself. We receive the stamps within a week-- super easy!

Thank you,

--
