

MOTS Messenger, a Newsletter for those using the Measures & Outcomes Tracking System

April 22, 2016

Attention EDI Submitters

Here are a couple of reminders for EDI submitters:

- For the Assessment Only option (status 04), you only submit the CPD portion of the record. Assessment Only does not have a corresponding Admission Date. The Admission date field is on the BHD portion of the record. The only date associated with the Assessment Only is the date and time it was submitted to MOTS.
- If you are submitting a MH Crisis (MCD) event or an Involuntary Service (INS) event for an **active** client, you will use status 01 (Active) in field 20 of the CPD segment that comes with the MCD or INS. This will indicate that the client is in active treatment but had one of the events requiring a submission. If the event being submitted is for an **inactive** client or is the **first submission** for this client, you will use the status corresponding to the segment being submitted (02 for MCD, 11 for INS) in field 20 of the CPD segment that comes with the MCD or INS.
- If you have any questions about the above 2 items, please contact MOTS Support (mots.support@dhsosha.state.or.us).

Future Enhancement

MOTS now allows more than one MH Crisis event (MCD) with the same Date of Service to be submitted. However, the Time of Service should not be the same. This would indicate a duplicate MH Crisis record. In the next release currently scheduled for May

19th, there will be an enhancement that will check for Time of Day for the service on a MH Crisis event record. If there is already a MH Crisis event with the same date of service and same time of service, you will not be allowed to submit the new record with the matching date and time.

Denise has been Pregnant for 18 Months

...And boy does her back hurt!

In MOTS you are only required to update a client's status every 90 days. For that update, it is important to note what has changed on the client's record. Some clients' records will change, sometimes radically, from reporting period to reporting period, such as youth, homeless, pregnant women, and people in diversion. Below is a list of items you may want to check to make sure they are the same when those records are updated:

- Pregnancy status (and number of dependents)
- Living Arrangement
- Competitive Employment
- Income
- Referred to
- Highest Grade completed
- Legal Status
- Peer Delivered Services
- Number of arrests in the last month
- Treatment Plan
- All fields in the Addictions Detail

Client Entry Webinar

May 4, 9 to 10 am—get up to date with changes and the latest information about MOTS and Client Entry. If you have questions, send them in before or take a moment during the Webinar to ask. You can register for the Webinar at <http://www.oregon.gov/oha/amh/mots/Pages/training.aspx>

Of course anything on those status records can change, so please take a look at all fields before you hit the submit button.

Thank you for reading this newsletter. If you have ideas or questions you want addressed in future newsletters, please let me know.
