Changes to Assessment tab to Accommodate Smaller Screens

- Moved “Date of Assessment” column to the left so that it can be seen without needing to scroll.
- Resized columns so there is less white space and more columns can fit on the screen.

Updated Permissions to Allow All ARIAS Users to Share Custom Views

- All ARIAS Users can now Share Custom Views with other ARIAS Users or Teams
- Detailed instructions on how to Create and Share Custom Views can be found on the [ARIAS website](#).

Custom List View - Updated 'Display Name' for "Automated Assessment"

- When creating Custom Views, the 'Display Name' for the "Automated Assessment" field was previously called 'Begin Monitoring?', which was confusing because it did not match the label on the ARIAS Contact screen.
- The Display Name is now 'Automated Assessment' and is consistent with what users see on the ARIAS Contact screen.
- If you have a Custom List View with this field, the column header will change to "Automated Monitoring".

Bug Fixes

- A Merge button was removed from the deduplication screen.
- The “Jurisdiction” dropdown was updated to be in alphabetical order.
- Resized the Letter Sent field to be consistent with other fields.
- Future dates were allowed in “1st Contact Attempt”, “2nd Contact Attempt”, and “3rd Contact Attempt” fields.
- Some questions validations were not working correctly on the End of Monitoring survey.
