## “Other Symptoms” Option Added to Automated Assessments

There is now an “Other Symptoms” option which contacts can select if they have a symptom other than shortness of breath, loss of smell or taste, cough, or fever.

- Once a contact checks the “Other Symptoms” option, they can enter in a symptom in the “If you have other symptoms please explain.” textbox

The screenshot shows the Oregon Health Authority Assessment form. The title "Assessment" is at the top. Below it, the question "Are you experiencing any of the following symptoms?" is followed by several checkboxes: "None", "Shortness of Breath", "Loss of Smell or Taste", "Cough", "Fever", and "Temperature" (with an adjacent input field). The "Other Symptoms" checkbox is checked and highlighted with a red box. A red arrow points to the text "If you have other symptoms please explain." below it. A large red-bordered text area is provided for the user to enter details. Below this is a date input field for "When did you first start noticing symptoms? (MM/DD/YYYY)". At the bottom, there are "Previous" and "Submit" buttons, and a copyright notice for 2020.

**Assessment**

Are you experiencing any of the following symptoms?

None  Shortness of Breath  Loss of Smell or Taste

Cough  Fever  Temperature

Other Symptoms

If you have other symptoms please explain.

Other.

When did you first start noticing symptoms? (MM/DD/YYYY)

If you develop any of these symptoms or have other concerns about your health, please contact your primary care provider.

## Ability to Generate and Download Form Letters Available to All Users

All users can now generate custom letters with any custom text and have it auto populated with field(s) from the contact's page.

There will be a Power Users meeting hosted by the Training Team near the end of this month with detailed information on Form Letters. If you have any questions about this, please contact:

[Training.Support@dhsoha.state.or.us](mailto:Training.Support@dhsoha.state.or.us)

The screenshot displays a user interface for a contact profile. At the top, there is a navigation bar with icons for Save, Save & Close, New, Deactivate, Connect, and Assign. A red box highlights the 'Word Templates' dropdown menu, which is open, showing options: Create Word Template, Upload Template, Download Template, Word Templates (with a sub-item 'ARIAS Contact Letter Templ...'), Personal Word Templates, and View All My Templates. A red arrow points to the 'Word Templates' dropdown. Below the navigation bar, the contact profile for 'Huey Kimm' is shown, including tabs for 'ARIAS Contact', 'REAL-D', 'Assessments', 'System Information', and 'Related'. The 'Basic Info' section contains fields for First Name (Huey), Last Name (Kimm), and Date of Birth (1/1/2000). Other fields for Language and Monitoring Status are partially visible.
