Introduction

Starting this week, Oregon Health Authority (OHA) will stop reporting recent cases, active outbreaks and resolved outbreaks in workplaces, childcare settings and K-12 schools (formerly Tables 3-9) in the COVID-19 Biweekly Outbreak Report. OHA will continue to report active and resolved outbreaks in long-term care facilities, senior living communities and congregate living settings (Tables 1-2). For more information on these changes, please refer to the [July 27 COVID-19 media release](#).

COVID-19 Congregate Care Setting Outbreak Report data will be finalized every other Sunday at 11 p.m. PDT, and the report will be published every other Wednesday. Data for this week are up to date as of Sunday, August 7. Please note that the data reported here are continually being updated. For daily up-to-date information, visit the OHA COVID-19 web page: <https://govstatus.egov.com/OR-OHA-COVID-19>. These data represent a snapshot of COVID-19 outbreaks in congregate care settings. The data shown in this report come from Oregon’s electronic disease surveillance system for reportable diseases.

Care Facility, Senior Living Communities and Congregate Living Settings Report

OHA is publishing data on cases and deaths in care facilities, senior living communities, and congregate living settings that have three or more confirmed COVID-19 cases or one or more deaths (Table 1). Facilities with outbreaks that are considered resolved are moved to the closed outbreak list (Table 2). An outbreak is considered resolved if no

new cases are identified for 28 days after the last case onset. This list does not include correctional facilities.

In addition to the facilities listed, OHA is aware of 540 congregate settings of five or fewer beds that have had three or more confirmed COVID-19 cases or one or more deaths. Because foster homes typically have relatively few residents, OHA follows the Oregon Department of Human Services practice in not naming these locations to protect patient privacy.

To date, there have been three deaths of staff who worked in a congregate care setting with COVID-19. To protect patient privacy, OHA does not report employee deaths by workplace or other potentially identifying information. Similar information will be released in the future in biweekly reports only if OHA determines that such information, in addition to other information it releases, and information released by other agencies, like the Centers for Medicaid and Medicare Services, cannot be used to identify an individual. To date, there have been 41,435 cases and 2,498 deaths associated with congregate care settings.
