Wheeler			0.0		0	243	3
Yamhill	8	7	46.0	2.7%	2	17,621	200

Notes: Data are provisional and subject to change.

\*Total cases include both presumptive and confirmed cases. Presumptive cases are people without a positive diagnostic test who have COVID-19-like symptoms and had close contact with a labratory confirmed case.

\*\* On September 23, 2021 the CDC added a classification of Variants Being Monitored. This classification includes variants previously designated Variants of Interest (VOIs) or Variants of Concern (VOCs) that are no longer detected or are circulating at very low levels in the United States, and do not pose a significant or imminent risk to public health in the United States. • The Delta variant number aggregates the pango lineages B.1.617.2 and AY.

There is a time-lag of approximately two weeks between when a sample is collected, sequenced and then reported by GISAID. This chart reflects that time-lag.

†The cumulative cases by county list does not include cases whose county of residence is unknown.

The Oregon Health Authority (OHA) is part of the statewide response working to address and reduce the effects of COVID-19 on the lives of Oregonians. Data presented here are from the OHA Public Health Division.

Oregon HOSCAP Update

### Notes

Data are provisional and subject to change.

\*"Total COVID-19 patients" include any patient who has either suspected COVID-19 or a positive COVID-19 test.

\*Every hospital in Oregon is asked to submit data twice daily to Oregon's Hospital Capacity Web System (HOSCAP). Data are based on the most recent report from the hospitals, available as of 9:00am. Hospital staff are asked to enter bed capacity information, by type, as well as the number of patients with suspected or confirmed COVID-19 illness who are currently hospitalized at the time of data entry. These data may conflict with hospitalization status in Opera due to case reporting and investigation lags and temporary discrepancies in case classification.

The Oregon Health Authority (OHA) is part of the statewide response working to address and reduce the effects of COVID-19 on the lives of Oregonians. Data presented here are from the OHA Public Health Division.
