<ul style="list-style-type: none">• REDCAP Update Timestamp 00:30• ALERT data in Opera Timestamp 29:10
Open discussion topics - User questions and feedback (All)
<ul style="list-style-type: none">• Q: So no changes to reporting case in OPERA, just in the redcap survey? Timestamp 02:16 and 04:22• Q: When they are created is the redcap also imported at that time? Timestamp 03:10• Q: I saw a couple of presumptive created today via the Hotline and it mentioned that the cases would be submitting REDCap surveys. Will the import of REDCap match with the newly created case or will a new case be created via REDCap import? Timestamp 05:50• Q: I noticed a note in a redcap case alerting us of case working at high-risk settings - can you talk a little bit about what places does RedCap view as high risk? I'm wondering if we'd also get cases that report working at AG, food processing, child care, etc. Timestamp 09:58• Q: What about vulnerable populations? Timestamp 11:25 and 12:55• Q: What about K-12 settings? Timestamp 12:45• Q: Small request - could we look into matching OB type settings? We're looking for ways to find missing OB places. Timestamp 14:02• Q: You can run an advanced search for a worksite in Opera I think, where you can find an outbreak at a food processing facility (for example) if there's enough cases identified as working there. But you would have to go digging for that info Timestamp 19:15• Q: Will the * asterisk work in front of Amazon as well? Timestamp 22:20

- Q: Is Opera auto-populating the School section if an eCR comes through from a k12 school? **Timestamp 31:20**
- Q: I thought the BA lines were just alias of the B.1.1.529 ? Just like the AY were sublineages of Delta. **Timestamp 34:00 and 38:00**

Future Meetings: First Tuesday of every month 1:00 – 2:00
