Enhancements to the “Person List - DeDuplicate” Screen

On the **Person List - DeDuplicate** screen, the following was updated:

- The **Disease** field was expanded to make it longer.
- If **Disease** equals **Person under monitoring**, the **Disease** field will be highlighted in yellow.

The screenshot shows the 'Person List - DeDuplicate' interface. At the top, there is a 'Home' button and the title 'Person List - DeDuplicate'. Below this, a summary box displays 'Record to keep: 1076652' and 'Disease: Coronavirus'. The main area is a table with columns: Last Name, First Name, Middle, DOB, Age, Sex, Disease, Score, Click to merge person (with 'Same As' and 'Different Than' buttons), Person ID, Deceased?, and Twin?. The table contains 11 rows. The 10th row has a yellow background and the 'Disease' field is highlighted in yellow with the text 'Person under monitoring'. A yellow box highlights this row. The 11th row has a white background and the 'Disease' field is 'Coronavirus'.
