[Questions Asked by Attendee](#)

Q: For the benchmark data, will the state be providing that data as the project moves forward or will we be required to collect the data?
A: --unanswered--
Q: For the benchmarks, I realize we have to collect individual data but aren't the benchmarks to be measured countywide? That is why we are asking if county level data will be collected and provided by the state, as was done for the needs/risk assessment.

Registration Q & A

Q: Organization
A: Yamhill CCF

Questions Asked by Attendee

Q: Why don't you just give your document to the outside evaluators?
A: --unanswered--

Q: Will you be able to alert via email when you have added answers to the FAQ?
A: --unanswered--

Q: Does Part 5 of B imply that you need to add a new service or can you support existing service?
A: These funds can not supplant current services. The intent is to broaden and enhance current or new services and outcomes.

Q: Leads who have dedicated grant writers have an edge in this type of short turn around. How have you allowed for this in the responses?
A: --unanswered--

Q: Would ARRA funding that is going away considered funds that would be supplanted?
A: --unanswered--

Q: MOre indepth explanation of the grant categories would be helpful
A: --unanswered--

Q: We urge you to allow a change, as 4 days notice in spring break makes it hard to get full attention from all partners.
A: --unanswered--

Q: Why are you asking counties to replicate your assesment work in A?>
A: An external review committee will be analyzing the applications. All information needed to determine which applications to select must be included in the application. This also provides the opportunity for applicants to review your data, validate and apply it to your application.

Q: RFA
A: --unanswered--

Q: Will you be able to alert via email when you have added answers to the FAQ?

Q: Organization
A: Tillamook County Health & Human Services

[Questions Asked by Attendee](#)

Q: No question, just comment. Thanks so much! The question answer portion was most helpful!
A: --unanswered--
Q: If the components of a coordinated home visiting program are truly collaborative, it will be difficult to separate out "new" families that will be funded with the federal funds and those families entering services at the same time that are funded with state funds or other sources. Would it be acceptable to list a percent increase in the number of client served and a random sampling of families to participate in the study/evaluation of outcomes (based on a 2009-10 baseline)? Or, are there other suggested approaches?
A: --unanswered--
Q: If you already have the program, do you expect that we will add another evidence based program or is enhancin the numbers and partners appropriate?
A: The program funded through this grant will be a stand alone program for data collection purposes. It can enhance another existing program, revise the current structure of an existing model (as long as it maintains fidelity of the national model), or create a new program.
