FROM: Chris Shoopman, Weatherization Program Coordinator
RE: Addition of Ductless Heat Pumps (DHP) to the Bonneville Power Administration (BPA) Contract
DATE: 11/10/2014

Greetings,

Effective 10/1/2014, the BPA has added ductless heat pumps to their list of allowable measures.

BPA will allow up to $3800 for the installation of DHPs. Reimbursement for this measure is dollar for dollar up to the maximum of $3800. The measure is approved for all program eligible households and does not have to meet the DOE SIR requirement of 1.0. However, the DHP must still be included in the REM design improvement analysis with all other measures to capture energy savings.

All other requirements of the 2013-2015 BPA contract remain in effect as outlined in the WX Memo 2013-2.

If you have any questions, please contact me at (503) 986-0972.

Best Regards,

Chris Shoopman
Weatherization Coordinator
