4.2 Provide your LIHEAP program's definition for determining a crisis.

A crisis exists when a household faces an energy burden which depletes or threatens to deplete financial resources, or which poses a potential health and/or safety threat to the well-being of the household.

4.3 What constitutes a life-threatening crisis?

A life-threatening crisis exists when a household member's health and/or well-being would likely be endangered if assistance is not provided to continue heating/cooling/energy services. Generally, this would require an active medical certificate but may be deemed a life-threatening crisis by the local service provider if extreme circumstances are present (e.g. extreme cold or heat, fuel supply shortages, etc.).

In addition to the above, the household must either be disconnected or at imminent risk of disconnection (within 5 days of application) to be considered as having a life-threatening crisis situation. Households with deliverable fuels must either be out of fuel or at imminent risk of being out of fuel.

Life-threatening crisis situations must be addressed within 18 hours of application. This timeframe must be documented to ensure compliance with the federal requirement and must include comments outlining how the situation was addressed.

Instructions for Certification

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

Section 19: Certification Regarding Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

3. For grantees other than individuals, Alternate I applies.

4. For grantees who are individuals, Alternate II applies.

5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee’s drug-free workplace requirements.

6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:
**Controlled substance** means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

**Conviction** means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

**Criminal drug statute** means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

**Employee** means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee’s payroll; or employees of subrecipients or subcontractors in covered workplaces).

Certification Regarding Drug-Free Workplace Requirements

Alternate I. (Grantees Other Than Individuals)
The grantee certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
(b) Establishing an ongoing drug-free awareness program to inform employees about --
  (1) The dangers of drug abuse in the workplace;
  (2) The grantee's policy of maintaining a drug-free workplace;
  (3) Any available drug counseling, rehabilitation, and employee assistance programs; and
  (4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;
(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);
(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will --
  (1) Abide by the terms of the statement; and
  (2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;
(e) Notifying the agency in writing, within ten calendar days after receiving notice under paragraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;
(f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted -

1. Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or
2. Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

(B) The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Alternate II. (Grantees Who Are Individuals)

(a) The grantee certifies that, as a condition of the grant, he or she will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in conducting any activity with the grant;

(b) If convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity, he or she will report the conviction, in writing, within 10 calendar days of the conviction, to every grant officer or other designee, unless the Federal agency designates a central point for the receipt of such notices. Attachment to 2018 LIHEAP State Plan
Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10) – Assurance 10

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

**Fiscal Monitoring:**
OHCS monitors fiscal operations within local agencies to ensure strong fiscal accounting and tracking of LIHEAP funds. Comprehensive annual reviews include, but are not limited to the following:

- General Ledger and Support Journals
- Timely submission of Financial Status Reports
- Charts of Accounts
- Accounting Policy and Procedure Manual
- Separation of Duties and internal controls
- Bank Reconciliations
- Samples of paid invoices, including signatures and check copies
- Time cards, including payroll register

**Procurement Processes**
- Cost Allocation Plans and Negotiated Indirect Cost Rates

**Equipment files and inventory reconciliation**
- Subcontracts and sub-award agreements

**Program Auditing**
Oregon’s LIHEAP program is audited under the Single Audit Act. Audits of local service providers are conducted by an entity independent of any agency administering activities or services under LIHEAP, and in accordance with generally accepted accounting principles and audit standards of the US General Accounting Office.

Fiscal staff, in collaboration with program staff of Oregon Housing and Community Services, review the annual independent audits which are conducted by private CPA firms. The CPA firms conduct the audit in accordance with 2 CFR, Part 200, Subpart F, if applicable.

Audits for the State of Oregon (Oregon Housing and Community Services) are conducted by the Audits Division of the Secretary of State’s office.
Corrective Action
The State of Oregon may choose to require sub-grantees to participate in additional monitoring activities when there is concern regarding potential non-compliance with Federal or State LIHEAP guidelines.

If a sub-grantee or sub-recipient is deemed to be out of compliance on the basis of monitoring results (routine or otherwise), the State of Oregon will provide the agency with corrective action steps necessary to resolve the concern. This includes, wherever possible, training and technical assistance.

If a sub-grantee or sub-recipient is unable to make improvements necessary to effectively deliver the LIHEAP program within a specified timeframe, another local service provider may be identified for future program operation.
Dear Ms. Kennedy:

This letter is in response to the items identified in your management letter dated March 15, 2017. Oregon Housing and Community Services Department is committed to maintaining strong internal controls and meeting compliance requirements for all programs administered.

Please include the following responses for the Statewide Single Audit report:

**Material Weaknesses:**

**Strengthen Controls Over Cash Management**

The agency agrees with this finding.

**Corrective action plan:**

The agency will be refining controls in order to ensure detection of “red flags” when requests for funds are received. When detected, the agency will request further documentation and/or explanation to elaborate on the previously received supporting documentation that accompanies each funding request. Further controls will ensure federal cash draws are for reimbursement of program expenditures. If the request is for an advance of federal funds, the agency will ensure the funds are for an immediate cash need of the subrecipient.
The agency has established strong controls in the monitoring of these requests when on-site visits occur. Supporting documentation is tested as part of the items monitored with emphasis on ensuring any funds advanced to a subrecipient are due to an immediate cash need and the time between the request and disbursement of funds is minimized. The agency’s monitoring schedule for fiscal year 2016 did not occur until fiscal year 2017 which partially contributed to this finding.

**Anticipated completion date:**

June 30, 2017

**Contact person responsible for corrective action:**

Sandra Flickinger

**Significant Deficiencies:**

Subrecipient Monitoring, Allowable Costs/Cost Principles

The agency agrees with this finding.

**Corrective action plan:**

Cost allocations are being tested by the fiscal monitor during the annual subrecipient on-site monitoring visit to ensure costs are allocated on a reasonable basis and that basis is applied correctly. The agency intends to expand the scope of testing to include the review of depreciation and interest expenses to determine the allocability to the program.

**Anticipated completion date:**

June 30, 2017

**Contact person responsible for correction action:**

Dear Ms. Salazar:

We have completed audit work of a selected federal program at the Oregon Department of Housing and Community Services Department (department) for the year ended June 30, 2016.

This audit work was not a comprehensive audit of your federal program. We performed this federal compliance audit as part of our annual Statewide Single Audit. The Single Audit is a very specific and discrete set of tests to determine compliance with federal funding requirements, and does not conclude on general efficiency, effectiveness, or state-specific compliance issues. The Office of Management and Budget (OMB) Compliance Supplement identifies internal control and compliance requirements for federal programs. Auditors review and test internal controls for all federal programs selected for audit and perform specific audit procedures only for those compliance requirements that are direct and material to the federal program under audit. For the year ended June 30, 2016, we determined whether the department substantially complied with the following compliance requirements relevant to the federal program.

Noncompliance
The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described below. Our opinion on the major federal program is not modified with respect to these matters.

Internal Control Over Compliance
Department management is responsible for establishing and maintaining effective internal control over compliance with federal statutes, regulations, and the terms and conditions of federal awards applicable to its federal programs. In planning and performing our audit of compliance, we considered the department's internal control over compliance with the types of requirements, referred to above, that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances. Our purpose is to express an opinion on compliance for the major program and to test and report on internal control over compliance in accordance with Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the department's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and
therefore, material weaknesses or significant deficiencies may exist that were not identified. As discussed below, we identified certain deficiencies in internal control over compliance that we consider to be a material weakness and a significant deficiency.

Audit Findings and Recommendations

Strengthen Controls over Cash Management

Federal Awarding Agency: U.S. Department of Health and Human Services
Program Title and CFDA Number: Low-Income Home Energy Assistance, CFDA 93.568
Federal Award Numbers and Year: 2016G992201; 2016G992205; 2016;
2016G992212, 2016, 2015G992201; 2015,
2015
Compliance Requirement: Cash Management
Type of Finding: Material Weakness, Noncompliance
Repeat Finding: 2015-030
Questioned Cost: $423,877 (known)
Criteria: 31 CFR 205.33; 2 CFR 200.305(b)

Federal regulations require program costs be paid with recipient funds before reimbursement is requested from the federal government. Furthermore, when awards provide for advance payments, recipients must follow procedures to minimize the time between the drawdown of funds from the U.S. Treasury and expenditure of funds by the recipient. Funds should be drawn only to meet immediate cash needs for the program. These regulations include expectations for the department to monitor cash drawdowns by subrecipients to ensure subrecipients conform substantially to the same standards that apply to the department.

We judgmentally selected 86 requests for funds and found 28 requests were not accompanied by supporting documentation that provided enough detail to determine whether the requests represent reimbursement of costs already paid by the subrecipient. We also found not all advances of funds had adequate documentation to allow for review of the purpose or time period covered to ensure that a minimal amount of time lapses between advancement to and disbursement of funds by subrecipients. The total amount of sampled requests for funds that did not have adequate supporting documentation was $423,877.

In addition to reviewing requests when they are received, the department has improved its reviews of subrecipient accounting records during annual site visits to verify requests for funds were in compliance with cash management requirements, but these visits have not yet occurred for expenditures reimbursed in fiscal year 2016. This has been an ongoing finding since fiscal year 2010.

We recommend department management finalize implementation of adequate controls to ensure subrecipient requests for funds are for reimbursements of program expenditures or are paid with advances that are for immediate needs of the program.

The department passes most of its Low-Income Home Energy Assistance Program (LIHEAP) funds through to subrecipients who perform the majority of the program activities. Federal regulations require the department, as a recipient of federal awards, to monitor subrecipients to ensure that federal awards are used for allowable costs in compliance with laws, regulations, and terms and conditions of the awards. This includes ensuring subrecipients use cost allocation plans following general cost principles including that expenditures charged to the LIHEAP program are reasonable, equitably distributed, and adequately documented.

During fiscal year 2016 the department implemented new subrecipient fiscal monitoring procedures. We reviewed four subrecipient fiscal monitoring files that the department reviewed under the new monitoring procedures. All four files included a cost allocation plan that was reviewed to determine whether the plan was reasonable to equitably distribute expenditures. However, two of the files included allocations for depreciation expense, totaling $465, which the department did not review to determine if the assets being depreciated met federal requirements for allowable depreciable costs. Additionally, one file included a monthly loan interest expense for building construction as an allocated cost in the amount of $36, which is contrary to federal requirements that no LIHEAP funds are to be used for the purchase of any building.

We recommend department management ensure cost allocation plans of its subrecipients are sufficiently reviewed to determine the plans are fully compliant with applicable cost principles.

Prior Year Findings
In the prior fiscal years, we reported noncompliance and internal control findings in the Statewide Single Audit Report related to LIHEAP. For the fiscal-year ended June 30, 2015; see Secretary of State audit report number 2016-09, and for the fiscal year ended June 30, 2014; see Secretary of State audit report number 2015-05.

During fiscal year 2016, the department continued to implement procedures for addressing these findings. The findings listed below will be reported in the Statewide Single Audit Report for the fiscal year ended June 30, 2016 with a status of partial corrective action taken.
The audit findings and recommendations above, along with your responses, will be included in our Statewide Single Audit Report for the fiscal year ended June 30, 2016. Including your responses satisfies the federal requirement that management prepare a **Corrective Action Plan** covering all reported audit findings. Satisfying the federal requirement in this manner, however, can only be accomplished if the response to each significant deficiency and material weakness includes the information specified by the federal requirement, and only if the responses are received in time to be included in the audit report. The following information is required for each response:

1) Your agreement or disagreement with the finding. If you do not agree with an audit finding or believe corrective action is not required, include in your response an explanation and specific reasons for your position.

2) The corrective action planned for each audit finding.

3) The anticipated completion date.

4) The name(s) of the contact person(s) responsible for corrective action.

Please provide a response to Julianne Kennedy by March 21, 2017 and provide Rob Hamilton, Statewide Accounting and Reporting Services (SARS) Manager, a copy of your Corrective Action Plan.

The purpose of this communication is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this communication is not suitable for any other purpose.

We appreciate your staff’s assistance and cooperation during this audit. Should you have any questions, please contact Diane Farris or Julianne Kennedy at (503) 986-2255.

Sincerely,

Attachment to 2018 LIHEAP State Plan
Section 10: Program, Fiscal Monitoring, and Audit

10.5 Describe the Grantee’s strategies for monitoring compliance with the Grantee’s and Federal LIHEAP Policies and procedures.

Sub-grantees enter into work plan agreements (contracts) that specifically outline local procedures for outreach, eligibility, application, intake, benefit determination and certification of payment to LIHEAP applicants. These agreements will be monitored for compliance with federal and state requirements.

All LIHEAP households are placed into a statewide database (OPUS) developed and maintained by Oregon Housing and Community Services. OPUS requires entry of several personal identifiers in order to process energy assistance benefits including but not limited to names, birthdates, Social Security numbers and physical addresses of all household members. Information is available for all LIHEAP households accessing services within the last 10 years.

Use of this statewide database not only prevents duplicate payments, but also allows LIHEAP providers to identify discrepancies in personal information provided by HH at the time of eligibility and benefit determination.

This system is shared by the State and sub-grantees and allows for realtime reporting as well as access to client intake processes, income calculations, eligibility determination and client comments. There is also an audit log which tracks any updates to a client’s record.

OHCS may monitor the activities of each Sub-grantee and its sub-recipients as it deems necessary or appropriate to ensure Sub-grantee and its sub-recipients comply with the terms of the agreement between OHCS and the sub-grantee and that grant fund awards are used properly for authorized purposes hereunder. OHCS also may ensure that performance goals are achieved as specified in the agreement, including without limitation in the Scope of Work, related Program Elements, Work Plans and Budgets. Monitoring activities may include any action deemed necessary or appropriate by OHCS including, but not limited to the following:

1. The review (including copying) from time to time of any and all Sub-grantee and sub-recipient(s) files, records and other information of every type arising from or related to performance under this Agreement;

2. Arranging for, performing, and evaluating general and limited scope audits;

3. Conducting or arranging for on-site and field visits and inspections;
(4) Review of Sub-grantee fiscal and program reports prior approval documentation; and

(5) Evaluating, training, providing technical assistance and enforcing compliance of Sub-grantee, sub-recipient(s), and their officers, employees, agents, contractors and other staff. OHCS may utilize third parties in its monitoring and enforcement activities, including monitoring by peer agencies. OHCS monitoring and enforcement activities may be conducted in person, by telephone and by other means deemed appropriate by OHCS and may be effected through contractors, agents or other authorized representatives. Sub-grantee consents to such monitoring and enforcement by OHCS and agrees to cooperate fully with same, including requiring by agreement and causing that its sub-recipients so cooperate.

OHCS reserves the right, at its sole and absolute discretion, to request assistance in monitoring from outside parties including, but not limited to the Oregon Secretary of State, the Attorney General, the federal government, and law enforcement agencies.

Sub-grantee shall fully and timely cooperate with OHCS in the performance of any and all monitoring and enforcement activities. Failure by Sub-grantee or any of its sub-recipients to comply with this requirement is sufficient cause for OHCS to require special conditions and may be deemed by OHCS as a failure by the Sub-grantee to perform its obligations under this Agreement.

Sub-grantee shall perform onsite visits to monitor the activities of its sub-recipients as specified by applicable grant program requirements or otherwise directed by OHCS, but in no case less than at least once during the term of the agreement, and not later than the third quarter of the term of the agreement (unless otherwise approved in writing by OHCS) to ensure that grant funds are used for authorized purposes in compliance with the agreement, including but not limited to specific program requirements, and that performance goals are achieved as specified in the Scope of Work.

OHCS generally will advise the Sub-grantee as to its observations and findings generated by any on-site visit; usually through an exit interview. Within 60 days after an on-site inspection, OHCS will endeavor to provide Sub-grantee with a written report as to its findings from that inspection. OHCS may advise the Sub-grantee of any corrective action that it deems appropriate based upon its monitoring activities or otherwise. Sub-grantee shall timely satisfy such corrective actions required by OHCS.

OHCS will review (including copying) annually or as it deems necessary any and all Sub-grantee and sub-recipient(s) files, records, and other information of every type arising from or related to performance under the agreement. Within 60 days after a review, OHCS will endeavor to communicate in writing to the Sub-grantee. OHCS may advise the Sub-grantee of any corrective action that it deems appropriate based upon its monitoring activities or otherwise. Sub-grantee shall timely satisfy such corrective actions as reasonably required by OHCS.

LIHEAP/OEAP Monitoring Process- 2017

All Sub-grantee agencies must participate in an annual program evaluation. This process involves the review of local files to assure compliance in the areas of eligibility, documentation and benefit determination as well as a possible site visit. During the review, any notes and/or deficiencies will be highlighted with the intent of strengthening program integrity both locally, as well as statewide.

Desk monitoring process:

1. File Selection. In Addition to general sampling, the compliance officer typically requests a sampling of files for each payment type, payment status, and vendor. Direct pays, crisis payments, agency employees served and files showing discrepancies in the file selection report will be oversampled.

2. If the review is to be a desk review; the compliance officer sends an “entrance letter” to the agency beginning the monitoring process. The entrance letter will identify the files that are being requested for review and outline any specific guidelines regarding file submission. The sub-grantee is given a specific timeline in which they must provide OHCS with copies of the selected files. These files must either be uploaded to Google docs, mailed or hand delivered, usually within 30 days of the request. If the review is to be an on-site file review the compliance officer sends a “scheduling e-mail” to the agency director to schedule the date of the review. Once the review dates are determined the compliance officer sends a “confirmation letter” outlining any specific guidelines for the on-site review. A list of files selected for review will be provided upon the compliance officer’s arrival, or 24 hours in advance.

3. If review is to be an on-site file review, an entrance interview will be conducted to briefly go over the process of the site review and identify any key staff the compliance officer will need periodic access to during the file review.

4. File review process begins. The compliance officer will review each file to ensure that all program guidelines were followed appropriately. Each file has a standard “checklist” filled out where the compliance officer will identify any deficiencies, and any notes needed to conduct the exit interview, and compile the report.
5. The compliance officer will conduct an exit interview with sub-grantee either via phone conference or in person to review any deficiencies identified during the review and to discuss possible corrective action steps needed.

6. OHCS compiles a monitoring report which outlines deficiencies identified during the file review, as well as recommendations/notes to the agency that will streamline program operations, strengthen internal controls, and/or improve services for low-income clients. The report will ask the sub-grantee to respond with corrective actions to each deficiency with an estimated completion date attached to them and if necessary, include mandatory corrective action steps outlined by OHCS.

7. If follow up/corrective actions are required, the compliance officer will follow up directly with the sub-grantee. The monitoring will not be closed until all follow up items/corrective actions are satisfactorily completed.

8. Once all follow up/corrective actions are satisfactorily completed, a closing letter will be sent to the sub-grantee. This letter will include the sub-grantees overall rating definition. The overall rating is weighted as explained below.
