

Instructions and Additional Information for the Pro Forma for the 2015 GAP NOFA:

1. There is an error in a referenced cell on the Income with OAHTC worksheet in the pro forma. If you are using OAHTCs, you can make this edit yourself. First, unlock the worksheet by right clicking the worksheet tab and selecting “unprotect”. Then go to cell O28 (to the right of “site-based rental assistance”); the correct formula for this should read “=Income!O28” (instead of O25). Type the correction into the cell. If you need assistance making this change, contact Natasha Detweiler at Natasha.Detweiler@oregon.gov
2. On the sources page, the HDGP funds are referred to as Trust funds.
