**RE: HACSA – Sponsors Proposed Housing Project for 54-60 All Male Ex-Inmates and Ex-Sex Offenders in the ACORN PARK OAK PATCH NEIGHBORHOOD, Eugene, Lane County, Oregon**

We want to let you know that a public project has been proposed that has a lot of public opposition. We would like to ask you, the Attorney General, Oregon Department of Justice, the Oregon State Housing Council/Oregon Housing and Community Services, to look at the budget and make sure no federal and state tax credits are being spent on this project that could hurt our vulnerable neighborhood.

We also have a positive vision for what could be done with the project site to actually help our low income neighborhood. This is the kind of thing we would like you to prioritize in the State budget.

The Housing and Community Services Agency, known as HACSA in Lane County and Sponsors, a non-profit agency housing program for ex-inmates and ex-sex offenders, have proposed a housing complex at 14th and Acorn Park to offer permanent housing to 54-60 male ex-cons who have graduated from Sponsors transition program. This project would also include offices for two full-time parole officers, whose normal case load would result in an additional 100 parolees coming through the neighborhood regularly.

While we applaud the work that Sponsors does in the community, we contend that this particular project is proposed for the wrong location. While it admirably houses at-risk individuals, it leaves other vulnerable populations in our community to bear the brunt of the risk --a brunt they are not equipped to bear.

Instead of shoehorning an especially challenging group, plus additional convict services, into this very dense area filled with children, imagine developing a community center to promote arts and ecology, serve children after school, investing in in the positive potential of Acorn Park families.

Rather than allow the State and Federal budget to subsidize a well-intentioned but out-of-place project that would bring additional complications for traffic, waste water, and emergency services to an overloaded residential pocket just a few blocks off West 11<sup>th</sup> --a very busy and main thoroughfare in West Eugene-- please do what you can to avoid greasing the wheels for yet another burden to the Oak Patch and Acorn Park area.

Thank you. We appreciate your careful and wise reconsideration on this matter. We do not want Sponsors to build this complex in our neighborhood.

Respectfully submitted by all signatories (please see attached 20 pages)

Acorn Park Community for Well-Being

PO Box 5152, Eugene, Oregon 97405

Encl: Proposal submitted to the City of Eugene City Council, HACSA and Lane Co. Board of Commissioners

**RE: HACSA/Sponsors' proposed apartment complex at the Acorn Park/Oak Patch site** to offer permanent housing to 54-60 male ex-cons who have graduated their program. This project will also include two full-time parole officers, who can be expected to have a normal caseload, adding approximately 100 more parolees periodically coming through this neighborhood for counseling.

While we applaud the work that Sponsors does in the community, we contend that this particular project is in the wrong location. While it admirably houses at-risk individuals, this leaves other vulnerable populations in our community to bear the brunt of the risk.

#### Risk of Criminal Harm, Especially to Children, Women, Elderly and Disabled

According to what Sponsors has told the community, occupants would have histories which could include sexual offenses, robbery, drug dealing and other drug-related crime, homicide and murder. They have said there will definitely be sex offenders, just not sexual predators. Will the parolees coming through include sexual predators? We do not know yet.

This is a neighborhood filled with children. Aside from the many schools, the proposed site is bordered on the west by a children's playground, two other playgrounds in the apartment complexes and on the east, by a children's gym. Imagine sex offenders walking daily by the picture windows where children are engaged in gymnastics. Or sitting in the park bench staring at children in the playground. Imagine ex-drug dealers observing the patterns of young people traversing the park or strolling along the bike path. In California, siting this project next to the playground would be illegal.

Moreover, about ten apartment and condominium complexes already crowd Oak Patch on both sides of the street, stretching from the bike path winding through what would be 12<sup>th</sup> and 13<sup>th</sup> to West 18<sup>th</sup>. There are five schools in the vicinity: McCornack Elementary School, Kennedy Middle School, The French Immersion School, Churchill High School, The Quaker School, the National Academy for Artistic Gymnastics, two playgrounds, several day care centers and Acorn Park itself with its own playground. Dense neighborhoods foster criminality. Adding 60 male ex-cons and near 100 parolees courts catastrophe.

Oregon rates for return to prison (recidivism) are 20% to 30% over the last three years. Sponsors claims their West University project has a 100% success rate but their statistics do not include people they have kicked out for violations! So we do not know the actual numbers.

Sponsors graduates who will be housed, working and monitored for street drugs at this proposed housing project, will probably do well, but it would be to expect no crime. Moreover, this is permanent housing, so the key number is lifetime recidivism. National five-year rates for re-arrest (not return to prison) are 76%. Note: Oregon rates are lower, but measure imprisonment, not arrest.

#### An Alternative That Would Better Serve This Neighborhood

This proposed complex would take up the last remaining open space, a space now occupied by two houses belonging to a beekeeper, two organic gardens and bees. Pesticides have never been used on this land.

Envision the City of Eugene purchasing the land from HACSA—and developing a Community Center and Public Library extension, with ample community garden spaces. This would promote arts, culture and ecology (promote the bee population because it is dwindling in recent years: resulting in more food crops), serve the children, and make the neighborhood a safer and better place to live. And we would (studies suggest) wind up with less crime, and fewer people in prison.

#### Other Issues: Public Utilities and Public Services

**Traffic.** The original R-2 application falsely claimed Oak Patch as the main access. But it is Acorn Park Street, a narrow two-way street. One can assume at least 50 more cars (including reporting parolees) turning onto 11<sup>th</sup> Avenue from Acorn without a traffic light. This is an added danger for children crossing Acorn Park Street to the playground in the park.

**Fire Hazard.** Oak Patch, from 13<sup>th</sup> to 18<sup>th</sup> is one of the most densely packed streets in Eugene. Getting rid of the alley/driveway on the southern segment of this property and packing in more apartments, fills this area with wood buildings, begging the question of fire hazard.

**Sewage.** The waste from 60 additional units draining onto Oak Patch may just be the final straw for the sewage system.

We respectfully submit this to Mayor Kitty Piercy and the City Council and the citizens/residents of Lane County. Thank you!

# Acorn Park Neighborhood Petition

1/20

This Petition is to let HACSA and Sponsors Corporations know how we as a community feel in this current situation of building a convict living facility between Acorn Park and Oak Patch Rd. at 1420 & 1430 Oak Patch dr.

What we know is that;

1. A percentage of sexual criminals that have been convicted will be living there.
2. Drug related and direct drug associated convicted criminals will be living there.
3. Theft-related and associated convicted criminals will be living there also.

It would be wrong to introduce this many convicts into a family orientated neighborhood.

There is also some minor and major mental issues that come with this life style and way of life.

This petition is in full acknowledgement of the build and against it entirely for the protection of our wives, children, homes and loved ones.

We as a community are not in acceptance of criminals living in a densely populated family neighborhood.

In conclusion we as community sign this as one voice and in unison against HACSA and Sponsors Corporations.

It would be wrong to introduce this many convicts into a family orientated neighborhood.

There is also some minor and major mental issues that come with this life style and way of life.

This petition is in full acknowledgement of the build and against it entirely for the protection of our wives, children, homes and loved ones.

We as a community are not in acceptance of criminals living in a densely populated family neighborhood.

In conclusion we as community sign this as one voice and in unison against HACSA and Sponsors Corporations.

# Acorn Park Neighborhood Petition

10/20

This Petition is to let HACSA and Sponsors Corporations know how we as a community feel in this current situation of building a convict living facility between Acorn Park and Oak Patch Rd. at 1420 & 1430 Oak Patch dr.

What we know is that;

1. A percentage of sexual criminals that have been convicted will be living there.
2. Drug related and direct drug associated convicted criminals will be living there.
3. Theft related and associated convicted criminals will be living there also.

It would be wrong to introduce this many convicts into a family orientated neighborhood.

There is also some minor and major mental issues that come with this life style and way of life.

This petition is in full acknowledgement of the build and against it entirely for the protection of our wives, children, homes and loved ones.

We as a community are not in acceptance of criminals living in a densely populated family neighborhood.

In conclusion we as community sign this as one voice and in unison against HACSA and Sponsors Corporations.
