4b. For each demographic group in the target population(s) that are least likely to apply, provide a description of how the program will be marketed to eligible individuals in the target population(s).

Grantee has partnered with the Department of Human Services (DHS) & Oregon Health Authority (OHA) to provide the outreach needed for our target population; DHS will serve the Intellectual or Developmental Disability (ID or DD) population & OHA will serve the Severe and Persistent Mental Illness (SMI) population. Grantee will provide brochures regarding the HUD 811 PRA program to DHS ODDS and OHA HSD that will be given to Service Providers and CDDPs to hand out to the target population. All training mentioned below will also include information regarding the following: Fair Housing Act and Outreach, Section 504, Title VI of the Civil Rights Act, and Americans with Disabilities.

1) LEP – OHA’s outreach and services will be culturally responsive and linguistically appropriate, provided by skilled and diverse staff possessing the training and support needed to serve a diverse population. Spanish speaking individuals have been identified through service data analysis as the population least likely to access mental health services. Program outreach materials and the Fair Housing poster will be provided in English and Spanish. The services of interpreters will be secured as needed to assist in outreach and to facilitate the rental process for program applicants. Materials will be provided in other languages as the need is identified through examination of data on service provision and anecdotal information on outreach efforts by service providers.

DHS ODDS will provide outreach and marketing materials that are simple and easy to understand so that Intellectual/Developmental Disabilities (IDD) individuals with limited English proficiency understand the program and their responsibilities (our target population). These materials will also be available in Spanish as needed. For individuals who speak a language other than English or Spanish, the CDDPs will provide interpreters as they do for all IDD services. ODDS will review these periodically with IDD Providers, advocates, families and individuals via surveys and communications.

2) ID or DD Individuals in Residential Group Homes – ODDS will compile a list of all Community Developmental Disability Programs (CDDPs) and Developmental Disabilities (DD) Providers for group residential, supported living and employment services site and main office addresses. Promotional materials will be made available to these sites to describe the HUD PRA 811 program to ensure the target population is reached at several levels.

ODDS will provide a training of the overview of the program and how it will work for CDDPs, client advocates and DD Providers. This training will only be an overview and will not allow for the person who received training to make referrals for the HUD PRA 811 program. Providing this training will help to ensure our target population is reached.

ODDS will train the CDDP case managers regarding the HUD PRA 811 which will include an overview of the program, methods of outreach and referrals, how to make a referral (completing application forms and proving income documentation) and Fair Housing. After completing the training, the case managers of the CDDP that were trained will be the individuals to make referrals. If a case manager is not trained, they cannot make referrals.

5c. Project Owner Compliance to display Fair Housing Poster and the AFHMP
Explain how you will ensure that every project owner will prominently display the Fair Housing Poster and AFHMP.

Grantee will provide the project owner with a Fair Housing Poster and a copy of the approved AFHMP. Grantee will require an annual compliance certification from the project owner and Grantee will check for compliance during the onsite review that is done every 3 years.
6. Evaluation of Marketing Activities

Explain the evaluation process you will use to determine whether your outreach activities have been successful in attracting individuals in the target population(s) who are least likely to apply, including who will be responsible for conducting this evaluation, when this evaluation will be conducted and how the results of this evaluation will inform future marketing activities.

For the 1st five (5) years after the initial plan is approved, the Grantee will obtain annual data from OHA & DHS. This data will be used to evaluate the success of the outreach to the target population. If it is determined that the outreach is unsuccessful or inadequate, the Grantee will reevaluate this plan with OHA & DHS to determine the necessary changes; the Grantee will then complete an updated plan and submit it to HUD for review and approval.

If there are no changes needed in the 1st five (5) years after the initial plan is approved, the Grantee will then review this plan every five (5) years, at a minimum, to determine if changes are needed. If changes are needed, the Grantee will complete an updated plan and submit it to HUD for review and approval.

7. Additional Considerations. Is there anything else you would like to tell us about your AFHMP to help ensure that your program is marketed to eligible persons in the target population(s) who are least likely to apply for the program? Please attach additional sheets, as needed.

The Grantee also certifies that training will be provided to staff/entities that provide outreach to target population(s) for the purpose of enrollment in the 811 PRA program.
