Site/Area Maps

Sponsor must provide a vicinity map with scale included. Highlight, sketch in, or outline the site location on any copies sent. Note: Please preserve color copies. Do not scan as black and white.

On the map, indicate the following:

- Location of nearby airports
- Railroads
- Nearest 4-lane highway or arterial
- Social Services agencies
- Hospital, police and fire depts.
- Recreational facilities (park, activity centers, etc.)
- Commercial/retail facilities (grocery, dept stores, etc.)
- Nearby industrial facilities
- Schools
- Rivers, streams, ponds, springs, wetlands

Also, provide the following:

- Please submit the most recent original colored FEMA Flood Plain map including a copy of the panel number and date **with project site sketched in**.
- A USGS map of the appropriate Township, Range and Section. The map you submit may be 8 ½ by 11 size, as long as it covers the entire “section” where the site is located. The site location **must be sketched in**.

Note to all applicants (regardless of funding requests):

If any building is 50 or more years old, include the following items with this application. Each individual building over 50 years of age requires submission of these items separately:

- Photographs of the targeted building(s) or of the proposed site, showing architectural context of the project. The photos must clearly show the entire building as well as the immediate surrounding neighborhood area.
- A physical description, including date of construction, of any building affected by the project completion. If alterations to the structures have been made, they need to be dated also.

IMPORTANT: Projects applying for HOME and or HTF funding from OHCS, may be required to complete a Section 106 of the National Historic Preservation Act of 1966 review process.

In the Section 106 process, a historic property, district, site, building, structure, or object included in or eligible for inclusion in the National Register of Historic Places must be reviewed by the State Historic Preservation Office (SHPO) as part of the NEPA Environmental Assessment. Instructions for the Section 106 review are available under [SHPO Clearance Form](https://www.oregon.gov/oprd/HCD/SHPO/pages/preservation_106.aspx) at: https://www.oregon.gov/oprd/HCD/SHPO/pages/preservation_106.aspx

However, if application is being made for HOME FUNDS from a jurisdiction other than OHCS, applicants must work with that HOME jurisdiction regarding completion of the SHPO process.

Water table within 18 inches of surface	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Wetland wildlife (ducks, salamanders, frogs, nutria, etc.)	<input type="checkbox"/> Yes	<input type="checkbox"/> No

For sites which possess no potential wetland characteristics such as building lots in established urban neighborhoods that are “high and dry”, desert sites with no water resources in the vicinity, or sites with no water resources in the vicinity that are un-vegetated or artificially planted (irrigation is a water resource), the above investigation may be cursory (an inquiry with the planning department and field observation).

If water resources are on site or adjacent, the planning department indicates potential for wetlands in the vicinity, any of the above characteristics are present or the public has raised wetlands as an issue, a more thorough examination is merited. The services of a qualified professional may be necessary. OHCS will not debate the delineation of any wetland (or the determination that no wetland is present) that has been documented as acceptable to the Oregon Division of State Lands.

Projects requesting **HOME** funds must comply with Section 7 of the Endangered Species Act which states that federally funded projects must not jeopardize the continued existence of a listed species or destroy or adversely modify designated critical habitat. To that end, and as a condition of reservation, each HOME project is subject to a professional Biological Assessment to determine the presence of species and critical habitat. This will be included as a Reservation Condition if the project is selected for HOME funding. In addition to the Biological Assessment, the Project may be subject to consultation with NOAA Fisheries Service and the U.S. Fish and Wildlife Service.

70. HUD regulations require all HOME funded projects to be free of contamination, such as Radon. Proposed new construction projects can incorporate Radon –resistant construction techniques into design. Rehabilitation projects must undergo Radon testing to establish the need for mitigation. Radon testing to screen multifamily properties must be completed by a certified radon professional, who is certified by the American Association of Radon Scientists & Technologists (AARST), the National Radon Proficiency Program (NRPP) or the National Radon Safety Board (NRSB).

The EPA has divided states and counties into three radon risk zones:
<https://www.epa.gov/radon/find-information-about-local-radon-zones-and-radon-programs>.
Elevated levels of radon can be found in any of the three zones.

Please indicate in which zone the project is located. Testing and mitigation will be included as a reservation condition if the project is selected for funding.
