PSH at a later date1

Question: If an entity has already been awarded a VGHAP for a specific project, can that same entity apply for PSH at a later date for the same project site?

Answer: A project can only request the PSH resources in the VGHAP NOFA if they are also seeking development funding. So no, a project can't request PSH funding at a later date outside the VGHAP NOFA. If the project goes through the Supportive Housing Institute they can request rental assistance and services funding from the PSH NOFA without requesting development capital (as long as some of the development capital came from OHCS previously). The next Institute application may come by early 2023.
