Greetings,

The FY2022 Organizational Standards Assessment has been added to the CSG software system and is ready for you. The timeline for the FY2022 Organizational Standards are as follows:

April 19, 2022: 2022 Assessment is uploaded and ready to be completed.

October 1, 2022: 2022 Assessment for the Organizational Standards is due for the initial submission.

October to January: Reviews and any additional information submitted to complete the organizational standards.

January 31, 2023: 2022 Organizational Standards Assessment closed out for the annual report.

The top 5 standards that I noticed during the 2021 assessment requiring some attention are: 3.5, 4.3, 4.6, 6.5, and 9.3 in the categories of Organization Leadership, Strategic Planning, Financial Operations and Oversight, and data analysis with board involvement.

We have seen a slight increase in our Organizational Standard scores and as things calm down a little, I anticipate that we will increase these scores. We had 7 agencies that met standards at 100%, 6 agencies that met standards at 99-90%, 4 agencies that met standards at 89-80%, and 1 agency that met standards at 79%-70%.

If you would like Organizational Standard training or have any questions, please contact me.

Sincerely,
Leeann Marx
