

Finding Your Next Home? We Are Here to Help.

Finding housing after a disaster can be difficult and confusing. A Housing Navigator will help you with the process.

How Can a Housing Navigator Help Me?

Housing Navigators work to help 2020 wildfire survivors move into short-term or permanent housing as quickly as possible. They will help you search for housing and connect you with resources to make it easier to move to a more secure situation. They can:

- Assist you with rental payments for up to 18 months, depending on your needs. This also includes paying for additional living expenses, even if you have insurance but it doesn't pay for everything.
- Help you develop your permanent housing plan, including addressing barriers for homeowners to rebuild or purchase a new home.
- Help you locate available short-term and permanent housing.
- Help you speak with landlords and prepare a rental application.
- Help you with move-in costs, including rent and utility deposits.
- Help you with resources such as furniture, etc., to settle comfortably into your new home.
- Connect you with translation and/or interpretation services.

How Can I Make My Move to More Secure Housing Happen Faster?

Any help you can provide by looking for housing opportunities will make the process go faster! If you find a home that works for you, let us know. You'll still be eligible for the same types of assistance.

Where can I get more information?
