The logo for the Oregon Health Authority. It features the word "Oregon" in a smaller, orange, serif font positioned above the "H" of the word "Health". The word "Health" is in a large, dark blue, serif font. Below "Health", the word "Authority" is written in a smaller, orange, serif font. A thin blue horizontal line is positioned below the "Health" text, extending from the left edge of the "H" to the right edge of the "t".

Legend

- Unvaccinated Adults
- Vaccinated Adults: Primary series only
- × Vaccinated Adults: Primary series + valid booster
- * Vaccinated Adults: Primary series + valid booster for 18 to 49 year olds, primary series + 2 valid boosters for 50+ year olds

Up to date-What You Need to Know

- CDC recommends everyone stay up to date with COVID-19 vaccination, including all primary series doses and boosters for their age group:
- People ages **6 months through 4 years** should get all COVID-19 primary series doses.
- People ages **5 years and older** should get all primary series doses, and the booster dose recommended for them by CDC, if eligible.

- People ages **5 years to 11 years** are currently recommended to get the **original (monovalent) booster**.
- People ages **12 years and older** are recommended to receive one updated Pfizer or Moderna (bivalent) booster.
- This includes people who have received all primary series doses and people who have previously received one or more original (monovalent) boosters.
- At this time, people aged **12 years to 17 years** can only receive the updated Pfizer bivalent booster.

Up to date-What You Need to Know

- Getting a COVID-19 vaccine after you recover from COVID-19 infection provides added protection against COVID-19.
- People who are moderately or severely immunocompromised have different recommendations for COVID-19 vaccines, including boosters.
- COVID-19 vaccine and booster recommendations may be updated as CDC continues to monitor the latest data.

The updated COVID-19 booster

What to know?

- **It's the best way to protect yourself** from severe illness and hospitalization
- **It protects** against the original strain and the Omicron variants BA.4 and BA.5
- **It's safe** and effective and can be given at the same time as a flu shot

When can you get it?

- **Two months** after any initial vaccine series
- **Two months** after a previous booster

Where can you find it?

- Contact your provider
- Visit the website: getvaccinated.Oregon.gov

Who is it for?

- The updated Pfizer booster dose is for everyone **12 and older**
- The updated Moderna booster dose is for everyone **18 and older**
