

Wildfire Recovery Technical Assistance Scope of Work

Build on Oregon's efforts to date to help move recovery implementation forward and maximize all funding sources.

Provide implementation technical assistance to OHCS to make informed, transparent decisions and on the following topics:

- Providing temporary, interim, and long-term housing solutions and strategies identified in the Housing Impact Assessment, drawing on best practices from other wildfire impacted communities and based on OHCS and ODHTF goals
- Building tribal and local government capacity to manage housing, infrastructure, and economic recovery programs
- Grant appropriation process
- Leveraging federal funding
- Assessing OHCS internal capacity
- Performing an unmet needs analysis
- Supporting tribal and local governments as program subrecipients

Wildfire Recovery

- > Supported California's 2017 wildfire unmet needs assessment and provided temporary housing solutions.
- > Developed post-fire rehabilitation, stabilization, and erosion control measures in California.
- > Supporting Lane Electric with their wildfire recovery.

Disaster Recovery & Mitigation

- > Designed, implemented, and carried out public engagement for more than \$20 billion in HUD-funded housing programs
- > Provide subrecipient management, tools, templates, and training for local and tribal governments to implement federal funds

HUD Technical Assistance Provider

Wrote the CDBG-DR and Homelessness programs launch toolkits

Our Relevant Experience

ICF Disaster Management Facts

Supported disaster recovery for

53 

Hurricane, tornado, tropical storm, major flood, volcanic eruption, wildfire, and pandemic declarations

Managed

\$40B+

CDBG-DR/-MIT grant funding

Managed
35,000+

FEMA recovery projects

165,000+

CDBG-DR grants awarded to homeowners

21 States/Territories of Geographic Coverage: AS, CA, CNMI, CT, FL, HI, IL, LA, MO, MS, NC, ND, NJ, NY, OR, PA, PR, SC, TX, USVI, WV

Housing Impact Assessment

Draft Task Force Action Plan,
Goals and Strategies

Deliverables

Week 1

Federal funding matrix for all disaster recovery federal funding sources.
Federal funding matrix for homelessness response and prevention by disaster (wildfire and COVID-19).

Month 1 (April-May)

Draft guidance and presentation on options for interim housing solutions.
Draft Analysis of Internal Temporary Housing Mission and Temporary to Permanent Housing Strategy.
Congressional delegation talking points and data for appropriations process.
Stakeholder engagement strategies.

Month 2 (May-June)

OHCS internal capacity assessment.
Summary of tools and approaches needed for subrecipient capacity building.
Draft report of unmet needs analysis.
Final Analysis of Internal Temporary Housing Mission and Temporary to Permanent Housing Strategy.

Deliverables

Month 3 (June – July)

Presentations, options, and analysis for permanent housing solutions and strategies
Final report of unmet needs analysis
Capacity building assistance for OHCS and potential subrecipients

July & Beyond

Non-federal cost share and duplication of benefits training
Decision matrix on method of distribution of funding to subrecipients
Additional implementation technical assistance, as needed
