Commissioners Hear Contested Cases, Approve Extension for CBN Compliance

Commissioners Additionally Hear Warehouse Update

PORTLAND, Ore. – At their regularly scheduled meeting today, Commissioners of the Oregon Liquor and Cannabis Commission took temporary action on rules, ratified stipulated settlements and received updates.

OLCC Executive Director Craig Prins provided an update to Commissioners on the agency's planned warehouse construction in Canby. The contractor's input for the Guaranteed Maximum Price (GMP) is currently being reviewed by the Oregon Department of Justice and the Department of Administrative Services, with anticipated execution of the contract set for Dec. 10. He also updated commissioners that the event to mark the project's groundbreaking is tentatively scheduled for next spring.

A temporary extension was approved by Commissioners for rules exempting CBN from the general requirements for artificially derived cannabinoids. The rules were set to expire Jan. 2, 2025, and OLCC is not aware of any artificially derived CBN manufacturers meeting the general requirements. This vote extends the deadline for manufacturers to meet the general requirements by an additional six months.

The Commission also ratified three stipulated settlement agreements for alcohol licensees. Detailed information on the specific cases below can be found [on the OLCC website](#):

Alcohol Stipulated Settlement Agreements
