(b) The Commission shall accept applications if the following conditions are met:

with these rules, the applicant will be provided with a notice of the failed inspection and the requirements that have not been met.”

(a) An applicant that fails an inspection will have 30 calendar days from the date the notice was sent to submit a written response that demonstrates the deficiencies have been corrected.

RULE TEXT:

A research certificate holder must submit a renewal application and the applicable renewal fees every three years, regardless of whether the Commission has acted on a previous renewal application.

(2) For purposes of this rule “license expiration date” means:

(a) The date of expiration on a license; or

(b) If the Commission has not acted on a pending license renewal application, the date the pending license would expire if the application had been approved.

(3) Except as described in sections (9) or (10) of this rule, a licensee who annually and timely submits a renewal application as described in section (8) of this rule on or before the license expiration date may continue to operate, pending a decision by the Commission.

(4) A licensee who fails to annually and timely submit a renewal application as described in section (8) of this rule on or before the license expiration date must stop engaging in any licensed activity when the license expires.

(5) Except as described in section (9) of this rule, if a licensee annually submits a renewal application as described in section (8) of this rule within 30 days after the license expiration date, the licensee may resume operation pending a decision by the Commission on the renewal application.

(6) The Commission will not accept a renewal application that is received more than 30 days after the license expiration date. In this circumstance, a person:

(a) May submit a new application, including the application fee, license fee, documents, and information required by the Commission; and

(b) Must not engage in any licensed activity unless and until granted a new license by the Commission.

(a) A retailer licensee that submits a renewal application must also submit a certificate of tax compliance issued no earlier than 90 calendar days prior to the expiration date listed on the current license certificate for each applicant as that term is described in OAR 845-025-1045.

(b) Temporary extensions.

(A) A retailer licensee that has submitted a renewal application but has not submitted all certificates of tax compliance may continue to operate no more than 90 calendar days following the expiration date listed on the current license certificate, pending a decision by the Commission unless the Commission grants additional extensions under paragraph (B) of this subsection.

(B) A retailer licensee may request additional time to obtain all required certificates of tax compliance, which the Commission will consider on a case-by-case basis. Failure to submit fees, forms, documents or information requested by the Commission under this section within a time period prescribed by the Commission may result in denial of the renewal application.

(12) If the Commission approves a renewal application, the Commission must notify the licensee in writing that the

renewal application has been approved and provide the licensee with proof of licensure that includes a unique license number, the effective date of the license, date of expiration, and a description of premises for which the license was issued. - (e) Be unobstructed and conspicuous.

(2) A label may not:

(a) Contain any untruthful or misleading statements including, but not limited to:

- (A) A health claim that is not supported by the totality of publicly available scientific evidence, including evidence from well-designed studies conducted in a manner that is consistent with generally recognized scientific procedures and principles, and for which there is significant scientific agreement, among experts qualified by scientific training and experience to evaluate such claims; or
- (B) A target potency that differs from the potency of the item based on the value calculated by the laboratory that tested the batch by more than 10 percent.

(b) Be attractive to minors, as that is defined in OAR 845-025-7000.

(3) Principal Display Panel.

- (a) Every container that holds a marijuana item or hemp item for sale or transfer to a consumer, patient, or designated primary caregiver must have a principal display panel, as that term is defined in OAR 845-025-7000.
- (b) If a container holding the marijuana item or hemp item is placed within another container for sale or transfer to a consumer, patient, or designated primary caregiver, both containers must have a principal display panel as that term is defined in OAR 845-025-7000 in addition to the other labeling requirements provided in these rules.

- (e) If the product is a hemp item, the principal display must include the hemp symbol in place of the universal symbol.
- (f) On or after July 1, 2022, if the package or container is a jar and is 1.75 inches or less in height and has a lid with a width of two inches or less, then the principal display panel must be on the top of the lid.

(5) Net Quantity Declaration.

(a) The net quantity of contents provided on the principal display panel must be the average net quantity of contents of all of the packages in the batch.

(c) The net quantity declaration shall be a distinct item separated from other printed label information on all sides by at least a space equal to the height of the lettering used in the declaration. The declaration shall be presented in bold type in the bottom 30 percent of the principal display panel and in lines generally parallel with the base of the container.

(6) Potency Labeling. Unless required to be relabeled as described in OAR 845-025-5760, the THC and CBD amounts required to be on a label must be the value calculated by the laboratory that did the testing in accordance with OAR 333-064-0100.

(a) The potency value shall be expressed as an average of the samples taken and tested under OAR 333-007-0360. A label may not have a THC value that exceeds the applicable maximum concentration limit by over 10 percent as specified in OAR 845-026-0200 to 845-026-0220 or 845-025-2760, as applicable.

(c) For cannabinoid edibles, cannabinoid tinctures, and cannabinoid capsules tested on and after January 1, 2025, if the delta-9-THC is less than 90 percent of the total THC, the label must separately display the delta-9-THC and THCA.

(7) The universal symbol. The universal symbol must be at least 0.48 inches wide by 0.35 inches high and can be downloaded on the Commission's website. Other than the size, which cannot be below the minimum size in this rule, the universal symbol may not be modified, including but not limited to, modifying the color or shape.

(10) A marijuana item or hemp item may have one or more label panels printed on or affixed to the container or packaging.

(11) Small Container Label. A marijuana item or hemp item that is in a container that because of its size does not have sufficient space for a label that contains all the information required for compliance with these rules:

(a) May, in lieu of a label that has all the information required in OAR 845-025-7030 to 845-025-7145, have a label printed on or affixed to the container holding the marijuana item or hemp item that includes at least the following:

containing important information.

(12) Tiny Container Label. A marijuana item or hemp item that is in a container that has a complete surface area available for applying a label that is less than two inches squared:

(13) The outer container used to display the marijuana item or hemp item for sale or transfer to a consumer, patient, or designated primary caregiver must comply with the labeling requirements in these rules, even if an inner container qualifies for the exception under section (11) or (12) of this rule.

(14) A marijuana item or hemp item that simultaneously falls within more than one category must comply with the labeling requirements that apply to each category, with the exception of the "DO NOT EAT" warning if the product is intended for human consumption or the "BE CAUTIOUS" warning if the effects of the product are customarily felt immediately. For example, a cannabinoid concentrate that is intended for human consumption must comply with the labeling requirements that apply to both cannabinoid concentrates and cannabinoid edibles.

(15) If a marijuana item or hemp item is placed in a package that is being re-used, the old label must be removed and it must have a new label.

(16) A licensee or registrant must have documentation that demonstrates the validity of the calculation of the amount of sodium, cholesterol, protein, sugar, carbohydrates, and total fat in a cannabinoid edible and must make that documentation available to the Commission or the Authority upon request.

(17)(a) A marijuana item or hemp item that contains an ingredient consisting of two or more sub ingredients must either:

(A) Use the common name of the ingredient followed by a parenthetical listing of all ingredients in a descending order of predominance; or

(B) List all sub ingredients as individual ingredients in descending order of predominance.

Nothing in this rule precludes the use of the nutrition information formats listed on pages 2 through 10 of Table 1 before January 1, 2026.

(20) If the container holding the marijuana item or hemp item does not meet the child resistant standards set out in these rules, the outermost label must contain the following statement: "This package is not child resistant."

(21) Exit packaging must contain a label that reads: "Keep out of the reach of children."

(22) A cartridge or vaporizing device containing a cannabinoid or hemp concentrate, extract, or product intended for use with an inhalant delivery system as that is defined in ORS 431A.175 is not required to be labeled in accordance with these rules except that the cartridge or device must have a label with the universal symbol or hemp symbol, as appropriate.
