On March 22, 2018, the Oregon Liquor Control Commission took the following rulemaking actions:

INITIAL ACTION

- **Harvest Notification (adopt 845-025-2090)**
  
  - Staff has identified harvest as an opportunity for diversion and is seeking to adopt a notification requirement for outdoor growers. This would require outdoor growers to notify the Commission of five harvest dates 72-hours before the first planned harvest date. This notification will allow enforcement staff ample opportunity to monitor harvests and ensure compliance with pertinent laws and rules.
  
  - **ACTIONS**
    - The Commission initiated rulemaking on the proposed adoption of 845-025-2090. Staff will hold an advisory committee, public hearing and comment period on this issue.

INITIAL & TEMPORARY ACTION

- **Medical Grow Site Administrator Package (amend OAR 845-025-2110 & 845-025-2120)**
  
  - Senate Bill 1057, passed during the 2017 legislative session, altered various aspects of the medical marijuana program. Commission staff have been working with the Oregon Health Authority to coordinate rule and process issues, as registered medical growers will begin tracking their grow sites within the Seed-to-Sale system this summer. This package makes technical corrections and aligns OLCC rules with OHA rules.
  
  - **ACTIONS**
    - The Commission temporarily amended 845-025-2110 and 845-025-2120 and initiated rulemaking. Staff will hold an advisory committee, a public hearing and a subsequent comment period on this issue.

PETITION & INITIAL ACTION

- **Agent Limited License (amend 845-015-0101 & 845-015-0115)**
On February 21, 2018, the Commission received a petition to amend OAR 845-015-0115. The petitioner requests that the Commission amend this rule to enable a Retail Sales Agent to obtain a Limited License at a separate location. OAR 845-015-0115 prohibits Agents from obtaining a license, other than an Off-Premise licensee.

**ACTION:**
- The Commission accepted the petition and initiated rulemaking to amend 845-015-0101 and 845-015-0115. Staff will hold an advisory committee, a public hearing and a subsequent comment period on this issue.
