Memo

TO: To Whom It May Concern

FROM: Bryant Haley, Administrative Policy & Process Division

DATE: September 21, 2018

RE: Commission Action on Rules, September 21, 2018

To whom it may concern,

On September 21, 2018, the Oregon Liquor Control Commission took the following rulemaking actions:

TEMPORARY & INITIAL ACTION

845-025-8590 - Suspension, Cancellation, Civil Penalties, Sanction Schedule

- This past summer, the Commission amended 845-025-8590 with changes to the penalty schedule for the sale of marijuana to a minor. During rulemaking, a technical error was made to the Category II violation table. This error allowed for Category II violations the choice of either a 30 day suspension or a penalty of a fine $4,950. Staff intended for Category II violations to only have the option of a 30 day suspension. This temporary action corrects the error.

- ACTION
  - The Commission temporarily amended the rule effective September 21, 2018 and initiated rulemaking. Staff will add this rule change to the bill and technical package.

FINAL ACTION

- Grow site Administrator
  - Senate Bill 1057, passed during the 2017 legislative session, altered various aspects of the medical marijuana program. Commission staff have been working with the Oregon Health Authority to coordinate rule and process issues, as registered medical growers began tracking their grow sites within the Seed-to-Sale system this past summer. The Commission will continue to hone these rules as the tracked medical marijuana program continues to mature.

- ACTION
