NEED FOR THE RULE(S):

The 2019 legislature made several changes to Division 20 of Chapter 845, known as Oregon's Bottle Bill provisions. These rules implement those changes. Additionally, during the operation and management of the Bottle Bill, staff identified areas that needed amendments to make language more clear and concise and to ensure continued viable operation of the program. Senate Bill 93 adds two types of redemption centers; full-service redemption centers and dealer redemption centers. Senate Bill 247 adds containers that contain hard seltzer and containers that contain kombucha to types of beverage containers covered by provisions of Bottle Bill. Senate Bill 590B limits space considered to be occupied by dealer for purposes of obligation to redeem beverage containers. Senate Bill 914 requires certain distributors and importers to register with distributor cooperatives and provide certain information to distributor cooperatives.

DOCUMENTS RELIED UPON, AND WHERE THEY ARE AVAILABLE:

Senate Bill 93 (available on the Oregon State Legislature's webpage.)
Senate Bill 247 (available on the Oregon State Legislature's webpage.)
Senate Bill 590B (available on the Oregon State Legislature's webpage.)

FISCAL AND ECONOMIC IMPACT:

This statement takes into account the fiscal impact on: (a) Local Government; (b) State Agencies; (c) the Public; and (d) Redemption Centers

(a) Local Government. The Commission anticipates no new fiscal impact on local government from the proposed amendments.

(b) State Agencies. The Commission anticipates no new fiscal impact on outside state agencies from the proposed amendments. The Commission anticipates a positive fiscal impact to the OLCC. The proposed amendments will save on postage, mailing supplies, and staff time to collect information from distributors. The proposed amendments derived from Senate Bill 247, will also allow the OLCC to acquire a second Bottle Bill dedicated position.

(c) The Public. The Commission anticipates a positive fiscal impact on the public from the proposed amendments to the extent that the proposed amendments allow for greater access to redemption centers to return containers.

(d) Existing and Future Redemption Centers. While the Commission recognizes that there will be a negative fiscal impact on existing and future redemption centers because a fee will be imposed to operate as a redemption center, this change is a result of Senate Bill 247 and cannot be amended by proposed rules.

COST OF COMPLIANCE:

(1) Identify any state agencies, units of local government, and members of the public likely to be economically affected by the rule(s). (2) Effect on Small Businesses: (a) Estimate the number and type of small businesses subject to the rule(s); (b) Describe the expected reporting, recordkeeping and administrative activities and cost required to comply with the rule(s); (c) Estimate the cost of professional services, equipment supplies, labor and increased administration required to comply with the rule(s).

(1) The Commission anticipates no new costs of compliance to comply with the proposed amendments for state agencies, local government or the public.

(2) Small Businesses

(a) The Commission estimates there to be around 4,000 businesses under 5,000 square feet subject to Bottle Bill provisions. The Commission used existing liquor license designations, and also estimated non-liquor license holders subject to bottle bill provisions, when determining this number.

(b) Small businesses considered to be "distributors" under the Bottle Bill will have a neutral fiscal change because they will still have to do annual reporting, but the organization that collects the information has changed from the OLCC to the Oregon Beverage Recycling Cooperative (ORBC.) The Commission recognizes that the legislature has required the additional reporting requirement of "size" of container during annual reporting. This reporting requirement will add additional administrative and reporting requirements to all businesses considered to be "distributors," including small businesses considered to be "distributors."

(c) There will be a positive fiscal impact on small businesses located in new "Dealer Redemption" zones under the proposed rules. If a Dealer Redemption center is set-up, it will lessen staff and labor time at small businesses subject to Bottle Bill provisions because they will have to count fewer redeemable containers in these zones. Storage space needed by small businesses subject to Bottle Bill provisions, will also be lessened in these zones because small businesses will be able to limit the number of containers they must accept per day to 24. Small businesses in a new

Dealer Redemption zone will need less cleaning equipment and cleaning supplies because of the reduced mess from the additional containers that they no longer have to accept.

DESCRIBE HOW SMALL BUSINESSES WERE INVOLVED IN THE DEVELOPMENT OF THESE RULE(S):

Small businesses, including small grocers and a representative of distributors (including small distributors), served on the Rules Advisory Committee.
