OLCC Commission Adopts Updated Rules for Marijuana Program Approves Marijuana Licensee Stipulated Settlements

PORTLAND, OR. – At its monthly meeting on **January 16, 2020**, the Commissioners of the Oregon Liquor Control Commission approved five marijuana violation stipulated settlement agreements. The Commission also adopted changes to the rules for the Recreational Marijuana Program that address technical fixes and changes made during the 2019 legislative session.

Many of the approved changes in the Division 25 rules affect all licensees while some apply to a specific license type. The new rules take effect February 1, 2020.

Under the new rules, **all licensees** must notify the OLCC at least 15 days in advance of losing access to their licensed premises.

Additional rule modifications that effect **all licensees** include:

- Clarifications regarding video surveillance and quality control samples;
- A deadline change for daily reporting into the Cannabis Tracking System; and
- An adjustment to the tracking of marijuana items transported around the state.

There are new rules for licensed marijuana producers regarding:

- Canopy area designation; and
- Providing proof of consent from the property owner for the location where the producer is growing their marijuana crop.

For producer, processor and wholesaler licensees there are new trade sample limits, and new THC concentration and testing limits for OLCC certified hemp growers and handlers (processors.)

Commission staff plan to release guidance and other communications to licensees and stakeholders before the new rules take effect February 1, 2020.

Additionally, the Commission approved the following fines and/or marijuana license suspensions, license surrenders, or marijuana worker permit surrender based on stipulated settlements:

Nutritional High* will pay a fine of \$4,950 OR serve a 30-day recreational marijuana processor license suspension for one violation.
