### **Attendance**

#### **Review THC limits for hemp items sold to minors**

*845-026-0300 (edited for brevity)*

- *Contains 0.5 milligrams or more of:*
- *Total delta-9-THC;*
- *Any other tetrahydrocannabinol or tetrahydrocannabinolic acid, including delta-8-tetrahydrocannabinol; or*
- *Any other cannabinoids advertised as having an intoxicating effect;*
- *Contains any quantity of artificially derived cannabinoids; or*
- *The testing was performed using a method with a LOQ that is not sufficient to demonstrate that the total delta-9-THC does not exceed 0.5 milligrams.*

#### **Review THC limits for hemp items sold to adults (table on page 2)**

#### **Artificially derived cannabinoids are currently not allowed for sale in the general market**

- There is still a limited path for products containing non-intoxicating artificially derived cannabinoids (example: CBN) to be sold in the OLCC-licensed adult use marijuana market

#### **Discuss recommendations to full task force as they relate to considerations:**

- Methods to prevent sales to minors of industrial hemp commodities or products that contain intoxicating cannabinoids
  - Areas of agreement based on today's discussion
- Testing requirements and methods of enforcement of testing requirements for cannabinoids, including artificially derived cannabinoids, to protect the public health and safety
  - Establishment of a state reference lab

- Minimum labeling standards for hemp products for human consumption
  - Support expansion of ODA handler licensing to enforce current testing standards
- Changes to state law to support the regulation of intoxicating cannabis-derived products and artificially derived cannabinoids
  - Areas of agreement based on today’s discussion

**OAR 845-026-0400**

**Table 3**

INDUSTRIAL HEMP PRODUCT THC CONCENTRATION AND SERVING SIZE LIMITS			
Type of Industrial Hemp Product	Maximum Amount of Total Delta-9-THC Per Serving	Maximum Amount of Total Delta-9-THC per Container	Maximum Concentration of Total Delta-9-THC
Hemp Edibles	2 mg	20 mg	0.3%
Hemp Topicals	N/A	N/A	0.3%
Hemp Transdermal Patches	2 mg	20 mg	0.3%
Hemp Tinctures	N/A	100 mg	0.3%
Usable Hemp	N/A	N/A	0.3%
Industrial Hemp Concentrates or Extracts	N/A	N/A	0.3%
Cannabinoid Hemp Products Other than Hemp Edibles, Topicals, Tinctures, or Transdermal Patches	2 mg	20 mg	0.3%
