

## Recreational Marijuana Program Compliance Education Bulletin

**Bulletin CE2019-01** 

February 11, 2019

The Oregon Liquor Control Commission is providing the following information to: recreational marijuana licensees.

Bulletin CE2019-01 covers the following issues:

- Oregon Metrc Wiki
- Metrc Training Opportunities

## Oregon Metrc Wiki for Recreational Marijuana Licensees

At the request of industry representatives making up the Metrc User Group, OLCC and Metrc staff have created a standalone <u>Wiki for all Oregon Metrc related topics</u>. <u>Metrc</u> is commonly referred to as the Cannabis Tracking System (CTS.)

On the Oregon Metrc Wiki you will find information related to topics such as plants, harvests, trade samples, promotional events, and other areas of intersection between OLCC's rules and Metrc functionality. This tool will be a one-stop location for any questions, inquiries, or directions that a recreational licensee or medical registrant may need to ensure their Metrc data accurately reflects the activity at their facility.

## The Oregon Metrc Wiki does not replace Oregon law or administrative rules related to recreational and medical marijuana requirements.

It is intended as a resource to assist users in meeting the marijuana tracking requirements found in existing laws and rules.

To help facilitate user engagement OLCC has created a feedback form, linked at the bottom of the home page of the Wiki and below in this bulletin. If you find information that you feel is incomplete or inaccurate, or would like to suggest additional topics, we welcome feedback to help improve the Wiki on an ongoing basis.

- The Oregon Metrc Wiki can be found at: <a href="https://wiki-or.metrc.com">https://wiki-or.metrc.com</a>
- The feedback link for the Wiki can be found at: <a href="https://www.surveymonkey.com/r/RCH8B95">https://www.surveymonkey.com/r/RCH8B95</a>
- If you have questions regarding the Wiki, please reach out to OLCC's CTS compliance team at: Marijuana.CTS@Oregon.gov

## **Metrc Training Opportunities**

In addition to the newly launched Oregon Metrc Wiki, Metrc has several longstanding resources for regular training. All licensees, employees, and medical registrants with Metrc access are encouraged to regularly attend training in order to keep up-to-date with Metrc functionality.

Metrc has a series of <u>YouTube training videos</u> that focus on the most commonly used features. Most of these videos are between two minutes and five minutes in length and may be watched on-demand at any time.

Metrc also features <u>regular webinar training</u> that may be signed up for by users with a valid license number. Advanced webinar trainings are offered by license type and cover more detailed information than the original introductory webinar that was required prior to licensure with the OLCC. Medical registrants may sign up for the OMMP webinar training for an introductory overview of Metrc features most relevant for medical tracking.

As always, Metrc support is available to help with questions related to webinar trainings, specific functionality, or general troubleshooting. Metrc can be contacted at <a href="mailto:support@metrc.com">support@metrc.com</a> or (877) 566-6506.
