

OREGON LIQUOR & CANNABIS COMMISSION

Artificially Derived CBN Manufacturer Request

What is this form?

Beginning July 1, 2023, OLCC licensees can only use artificially derived CBN in a product if the manufacturer of the artificially derived CBN has received approval from OLCC as described in OAR [845-025-1310\(4\)\(b\)\(D\)](#).

Manufacturers seeking approval must send this form and any relevant attachments to olcc.hemp@oregon.gov.

Section 1 – CBN Manufacturer Information

Business Name:		License Number: (ODA or OLCC)	
Phone Number:		Email Address:	

Section 2 – Required Information

Confidential or Trade Secret Designation

I believe the information in this form or my attachments falls within the definition of a trade secret in ORS 192.501.

Describe the steps you have taken toward determining that the CBN you manufacture is Generally Recognized as Safe (GRAS) or toward submitting a New Dietary Ingredient Notification to the FDA:

Hazard Analysis

I have conducted a hazard analysis as described in 21 CFR 117.130 to identify foreseeable hazards in the process of manufacturing the CBN will attach a copy of the analysis when submitting this form.

Preventative Controls

Select one of the following:

I will attach a copy of any preventative controls as described in 21 CFR 117.135 that minimize or prevent any hazards requiring preventative controls.

My process for manufacturing CBN does not have any hazards requiring preventative controls as described in 21 CFR 117.135.

Section 3 – Acknowledgement

I understand that if my answers are not true and complete, OLCC may deny my license application.
