

**OREGON LIQUOR & CANNABIS COMMISSION**

# Change to Processor Endorsements

The addition of an endorsement requires **approval** from the OLCC. If you are surrendering an endorsement, you must notify the OLCC in writing.

### What is this form?

A Processor licensee may only process and transfer cannabinoid products, concentrates or extracts if they have received an endorsement from OLCC for that type of processing activity; see OAR [845-025-3210](http://www.oregon.gov/OLCC/Pages/845-025-3210.aspx) for definitions and details. You must request and be approved for an endorsement prior to using the endorsement. You are responsible for knowing and understanding what types of products you may process with your endorsements. Processing products that you do not have the privilege to process can be a serious violation.

If you are adding a concentrate, extract, topical, or edible endorsement, you must have a Land Use Compatibility Statement (LUCS) signed by your local governing body that lists the endorsement(s) that you are seeking listed in the "Details of Proposed Use" field. If you are only adding an industrial hemp endorsement, a new LUCS is not required.

Note that making material or substantial alterations the licensed premises or to the usage of the licensed premises requires OLCC approval. If you intend to make a material or substantial alteration the licensed premises or to the usage of the licensed premises in order to exercise the privileges of the new endorsement, you will need to submit an [Alterations to a Licensed Premises](#) request and receive approval prior to altering the premises or altering the usage of the premises.

Submit your request via email to: [OLCC.MarijuanaAssignments@oregon.gov](mailto:OLCC.MarijuanaAssignments@oregon.gov)
