

Producer Medically Designated Canopy Registration

Form Instructions

What is this form?

A Producer may register with the Commission to produce usable marijuana for registered OMMP cardholders, as long as the Producer provides at least seventy five percent of the annual yield of usable marijuana from their medically designated mature canopy to OMMP cardholders for no consideration. "Consideration" means value that is given or received either directly or indirectly through sales, barter, trade, fees, charges, dues, contributions or donations.

Additionally, a Producer with this privilege may transfer or deliver in accordance with OAR 845-025-2550 immature marijuana plants to a person responsible for a marijuana grow site (PRMG) registered under ORS 475C.792 at the PRMG's grow site or to a registry identification cardholder or designated primary caregiver at the licensed premises of the producer or to a location in Oregon that is the residence of a registry identification cardholder or designated primary caregiver.

Does this mean I can keep my medical grow site registration?

No. The OLCC will not issue any license to a site that is registered with the Oregon Health Authority (OHA) for the production of medical marijuana. Any OHA registration for the site will need to be surrendered at the time of licensure as directed by the Commission. This registration is a separate privilege under the OLCC Producer license.

How much additional canopy space am I allowed?

Once approved, your medically designated canopy may be up to ten percent of the maximum mature canopy allowed for your tier. For example:

- A Tier II Outdoor Producer may designate up to 4,000 sqft of medically designated canopy in addition to the 40,000 sqft of mature canopy already allowed under the license.
- A Micro Tier I Indoor Producer may designate up to 62.5 sqft of medically designated canopy in addition to the 625 sqft of mature canopy already allowed under the license.
- A Tier I Mixed Producer may designate up to 2,000 sqft of outdoor medically designated canopy **OR** up to 5000 sqft of indoor medically designated canopy in addition to the approved mature canopy already allowed under the license.

If you will only be transferring immature plants, not usable marijuana, you do not need to identify a medically designated canopy area. Immature plants may be transferred from any canopy area at your licensed premises.

Instructions

If applying as part of your initial license application:

- Fill out this form, completely and legibly.
- Upload the form to your online license application. If you are already working with an assigned license investigator, you may email the form directly to your investigator.

If applying to add this registration to your existing Producer license:

- Fill out this form, completely and legibly.
- Email the form to OLCC.MarijuanaAssignments@oregon.gov.
- Adding medically designated canopy will typically constitute a material or substantial alteration the licensed premises or the usage of the licensed premises, which requires OLCC approval. In addition to obtaining this registration, you will need to submit an [Alterations to a Licensed Premises](#) request and receive approval prior to altering the premises or the usage of the premises.

OREGON LIQUOR & CANNABIS COMMISSION

Supplemental Form:

Producer Medically Designated Canopy Registration

Section 1 – Producer Information

Application/License ID:	
Applicant/Licensee Name:	

Section 2 – Control Plan

Your registration must include an agreement to operate under a control plan that fully segregates the mature canopy used to produce marijuana for OMMP cardholders and that segregates the harvested marijuana produced for OMMP cardholders from all other marijuana produced on the premises. Although up to 25% of the usable marijuana produced for OMMP cardholders may be transferred to other licensees of the Commission, this marijuana may not be intermingled on the Producer premises.

This control plan is considered a part of your approved security plan. Failing to follow this control plan may constitute a failure to follow an approved security plan, in addition to other violations, and may result in sanctions up to and including revocation of my approved security plan or license cancellation.

Select one of the following options:

- ☐ **I will not have a medically designated canopy area.** I am requesting this registration for the sole purpose of providing immature marijuana plants to OMMP cardholders or persons responsible for a marijuana grow site (PRMGs). I will not transfer usable marijuana under this registration.
- ☐ **I will have a medically designated canopy area.** I agree to follow the control plan below, including ensuring marijuana produced for OMMP cardholders remains only in those areas of my premises clearly designated both physically and on my floor plan or premises sketch for that purpose:
- The area of the mature canopy designated for the production of marijuana for OMMP cardholders is separated by a physical barrier such as a fence or located in a separate room within my premises and is clearly marked at all entry points indicating it as designated for OMMP cardholders and not to be intermingled with other marijuana.
 - The areas designated for the drying and storage of marijuana produced for OMMP cardholders, including any trimming areas, are separate from areas used for the drying, storage, and trimming of other marijuana produced on the premises on my floor plan and/or premises sketch.
 - I will establish standard operating procedures and training for employees to ensure marijuana produced for OMMP cardholders is segregated from other marijuana produced on the premises at all times.
 - I will clearly indicate by signage, physical segregation, color-coding, or other methods which areas of my premises are dedicated for the production, storage, and movement through the premises of marijuana produced for OMMP cardholders.

Note: Producers who select “I will have a medically designated canopy area” may also provide immature marijuana plants to OMMP cardholders or PRMGs, in addition to providing usable marijuana to OMMP cardholders as allowed by OAR [845-025-2500](#) and [-2550](#).

OREGON LIQUOR & CANNABIS COMMISSION

Supplemental Form:

Producer Medically Designated Canopy Registration

Section 3 – Acknowledgements

As an applicant/licensee representative, I acknowledge that once this registration is approved, I:

Must comply with all seed-to-sale tracking requirements required in these rules, which includes using CTS to document the amount of usable marijuana transferred to each OMMP cardholder, the date of the transfer, and the cardholder's OMMP number. For immature plants, this includes using CTS to document the amount of immature marijuana plants transferred to each OMMP cardholder or PRMG, the date of the transfer, and the cardholder's OMMP number or the grow site registration card number of the PRMG.

Must comply with testing rules applicable to testing of usable marijuana prior to transferring usable marijuana to an OMMP cardholder and, upon request by an OMMP cardholder, provide the cardholder with a copy of all test results.

Must comply with all applicable testing, labeling, and packaging rules when transferring or selling usable marijuana to any licensee of the Commission.

Must provide at least 75 percent of the annual yield of usable marijuana from the medically designated canopy to OMMP cardholders.

May provide an OMMP cardholder up to 24 ounces of usable marijuana in any one transfer and three pounds in a calendar year.

May not be compensated for producing or providing usable marijuana to an OMMP cardholder.

May provide an OMMP cardholder or PRMG with immature marijuana plants, up to the limits specified in OAR [845-025-2500](#) and [-2550](#).

May terminate their registration with prior notice to the commission. Upon termination, the Producer must cease production in the medically designated canopy area and transfer any remaining usable marijuana yielded from the medically designated canopy to an OMMP cardholder as allowed by these rules.

May not transfer more than 25% of the total annual yield of usable marijuana from the Producer's medically designated canopy to licensees of the Commission.

I have read and understand OAR [845-025-2500](#) and [-2550](#), including the requirements summarized above. I recognize that I am agreeing to follow the control plan as written in Section 2 of this form. Additionally, I understand that OAR [845-025-2560](#) provides that the Commission may cancel or suspend this registration if the Producer violates these rules.
