

OREGON LIQUOR CONTROL COMMISSION

**Supplemental Form:
Producer Propagation Endorsement**

What is this form?

A producer licensee may apply for a propagation endorsement in order to grow additional immature marijuana plant canopy. Without a propagation endorsement, a producer is subject to the following limits for immature canopy:

- Micro Tier I: 625 square feet
- Micro Tier II: 1,250 square feet
- Tier I: 5,000 square feet
- Tier II: 10,000 square feet

With a propagation endorsement, a producer may designate additional immature canopy beyond these limits if this additional immature canopy is needed to produce immature plants for sale to other licensees.

How do I apply?

1. Fill out this form, completely and legibly.
2. If you are proposing to expand your immature canopy beyond the areas where you are already approved, you will need a new [Land Use Compatibility Statement \(LUCS\)](#). At the bottom of page 1, check the "Producer" box, and write "Propagation Endorsement" in the "Details of Proposed Use" field. Bring this form to your local governing body for them to indicate whether the proposed use is or is not prohibited. If you are not proposing to expand your immature canopy beyond the areas where you are already approved, no LUCS is needed.
3. Attach a premises sketch/floor plan that clearly shows your proposed immature canopy area(s), complete with square footage and dimensions, as well as all of the other details that are required on a producer premises sketch/floor plan. See the [Producer Premises Map Instructions](#) for a complete list of requirements.
4. Email this form, your premises sketch/floor plan, and your LUCS (if applicable) to marijuana.licensing@oregon.gov with the subject line "Propagation Endorsement". Attach this form and your signed LUCS to the email.

Section 1 – Producer Information

Application/License ID:			
Applicant/Licensee Name:			
Contact Name:			
Contact Phone:		Contact Email:	

Section 2 – Propagation Plan

As an applicant/licensee representative, I affirm that:

- I will produce immature plants for sale to other licensees; **and**
- This additional immature canopy is necessary in order to produce immature plants for sale to other licensees
