##### **Propagation Endorsement**

(1) A producer licensee may apply for a propagation endorsement in order to grow additional immature marijuana plant canopy as defined by these rules.

(2) Application. A producer applying for an endorsement under this rule, must submit a propagation plan that demonstrates that additional immature marijuana plant canopy is required for the production of immature plants for sale to other licensees.

(3) Land-use Compatibility Statement. ~~(a)~~ Licensed producers who have previously submitted a land use compatibility statement are not required to submit an additional land use compatibility statement when registering for a propagation endorsement, so long as there is no change in the aggregate size of the mature and immature canopy areas.

~~(b) Licensed producers who were exempt from submitting a land use compatibility statement under these rules at the time of licensure must submit a land use compatibility statement when applying for a propagation endorsement if the producer's total canopy of mature medical and recreational plants exceeds 5,000 square feet for outdoor producers and 1,250 square feet for indoor producers.~~

(4) Denial and Revocation. The Commission may deny a producer's request for an endorsement or revoke the endorsement. If the Commission denies or revokes the endorsement, the producer has a right to a hearing under the procedures of ORS chapter 183.
