BEFORE THE
OREGON MEDICAL BOARD
STATE OF OREGON

In the Matter of)
MICHELLE SHEMARYA ALBERTS, MD) CORRECTIVE ACTION AGREEMENT
LICENSE NO. MD21760)
)

1.

The Oregon Medical Board (Board) is the state agency responsible for licensing, regulating and disciplining certain health care providers, including physicians, in the State of Oregon. Michelle Shemarya Alberts, MD (Licensee) is a licensed physician in the State of Oregon.

2.

The Board opened an investigation after receiving credible information regarding concerns about Licensee's prescribing practices and failure to follow the opioid prescribing guidelines. If this matter were to proceed to hearing the Board believes they may be able to prove violations of ORS 677.190(1)(a); ORS 677.190(13); and ORS 677.190(24).

3.

Licensee and the Board now desire to settle this matter by entry of this Agreement. Licensee understands that she has the right to a contested case hearing under the Administrative Procedures Act (chapter 183), Oregon Revised Statutes. Licensee fully and finally waives the right to a contested case hearing and any appeal therefrom by the signing of and entry of this Agreement in the Board's records. The Board agrees to close the current investigation and does not make a finding in regard to any violation of the Medical Practice Act. This Agreement is a public document; however, it is not a disciplinary action. This document is reportable to the National Practitioner Data Bank and the Federation of State Medical Boards. Licensee understands the terms of this Agreement and signs freely, without fraud or duress.

///

4.

In order to address the concerns of the Board and for purposes of resolving this investigation, Licensee and the Board agree that the Board will close this investigation contingent upon Licensee agreeing to the following conditions:

4.1 Within three months from the effective date of this Agreement, Licensee agrees to complete a prescribing course that has been pre-approved by the Board's Medical Director.

4.2 Licensee agrees, at her own expense, to enter into an agreement with a licensed physician who is pre-approved by the Board's Medical Director to serve as her practice mentor. Licensee agrees to meet with the approved mentor at least twice a month, and the mentor shall review, on an ongoing basis, at least 20% of charts for patients treated by Licensee with Morphine Equivalent Dose greater than 90. Specific attention shall be paid to systematic use of the Oregon PDMP, urine drug screens, material risk notification, and compliance agreements. The mentor is to provide quarterly written reports to the Board on Licensee's ability to safely and competently practice medicine. Licensee may request to terminate this term after one full year of compliance, four quarterly reports from the mentor, and a written recommendation of termination from the mentor.

4.3 Licensee agrees to inform the Compliance Section of the Board of any and all practice sites, as well as any changes in practice address(es), employment, or practice status within 10 business days. Additionally, Licensee agrees to notify the Compliance Section of any changes in contact information within 10 business days.

4.4 Licensee agrees to obey all federal and Oregon state laws and regulations pertaining to the practice of medicine.

Licensee and the Board desire to settle this matter by entry of this Stipulated Order. Licensee understands that he has the right to a contested case hearing under the Administrative Procedures Act (chapter 183), Oregon Revised Statutes. Licensee fully and finally waives the right to a contested case hearing and any appeal therefrom by the signing of and entry of this Order in the Board's records. Licensee neither admits nor denies, but the Board finds that Licensee engaged in the conduct described in paragraphs 3.1, 3.7, and 3.8 of the Amended Notice dated August 2, 2021, and that this conduct violated ORS 677.190(1)(a), as defined in ORS 677.188(4)(a), ORS 677.188(4)(b), and ORS 677.188(4)(c); ORS 677.190(13); ORS 677.190(17), specifically OAR 847-001-0024(2) and the 2019 Interim Stipulated Order; and ORS 677.190(24). Licensee understands that this Order is a public record and is a disciplinary action that is reportable to the National Practitioner Data Bank and the Federation of State Medical Boards.

4.

Licensee and the Board agree to resolve this matter by the entry of this Stipulated Order subject to the following terms and conditions:

4.1 Licensee is reprimanded.

4.2 Licensee must pay a civil penalty of \$5,000. Of this civil penalty, \$1,000 is due within 30 days from the effective date of this Order. The remaining \$4,000 is held in abeyance as long as Licensee is in compliance with all terms of this Order. If Licensee fails to comply with the terms of this Order, the \$4,000 held in abeyance shall be due and payable.

4.3 Licensee may begin treatment with buprenorphine/naloxone or buprenorphine for any patient diagnosed with substance use disorder.

4.4 Licensee may transfer patients to another appropriate provider at any time.

4.5 Licensee may transition patients on chronic opioid medication to buprenorphine at any time or continue to prescribe buprenorphine or buprenorphine/naloxone to any current patient taking the medication with monitoring, precautions, and chart documentation per recognized standards as described below.

1 4.6 Licensee must not treat any new or existing patient with a new opioid prescription
2 or increase the dosage of opioids for patients currently on opioids unless the prescription is for an
3 acute injury or for immediate post-operative pain management. Any opioid prescription for an
4 acute injury or for immediate post-operative pain management written pursuant to this paragraph
5 must not exceed 14 days in duration.

6 4.7 Licensee must, within 14 days of the effective date of this Order, review his
7 patient panel and identify all patients on potentially dangerous regimens. For the purpose of this
8 Order, potentially dangerous regimens include:

9 4.7.1 Opioid medication(s) (other than agonist/antagonists such as
10 buprenorphine) in excess of 30 days in any 120-day period and concomitantly in excess
11 of 90 morphine equivalent dose (MED) as calculated by the CDC calculator.

12 4.7.2 Opioid medication(s) (other than agonist/antagonists) in excess of 30 days
13 in a 120-day period that are prescribed in combination with any chronic benzodiazepine
14 or carisoprodol (Soma) or both.

15 4.7.3 Buprenorphine prescribed in combination with pure opioid agonists.

16 4.7.4 Opioid medication(s) in excess of 30 days in a 120-day period that are
17 prescribed in combination with any chronic benzodiazepine (defined as in excess of 30
18 days in a 120-day period) or carisoprodol or any of the hypnotics zolpidem, zaleplon,
19 eszopiclone, doxylamine, or ramelteon.

20 4.7.5 Patients on chronic opioids with a concomitant substance use disorder
21 (SUD) involving a second, non-opioid substance (e.g., alcohol use disorder;
22 methamphetamine use disorder; etc.).

23 4.8 Within 30 days of the effective date of this Order Licensee must update
24 assessments for patients identified in term 4.7. Identified patients must be seen in person, or by
25 appropriate telehealth if a current public health emergency prevents in-person visits. The
26 following items must be updated and documented in the patient chart:

27 4.8.1 All current diagnoses;

28 ///

1 4.8.2 Assessment of patient's functional status and the benefit of the drug
2 regimen;

3 4.8.3 Date and findings related to monitoring, to include urinary drug screens
4 (UDS) and checks of the Oregon Prescription Drug Monitoring Program (PDMP) and
5 any actions taken regarding any aberrancies discovered (e.g., multiple prescribers
6 according to the PDMP; more than one early refill; or contraband substances or absence
7 of prescribed medicines or metabolites in the UDS, etc.). In the event that a PDMP check
8 has not been conducted within the prior six-month period, a PDMP check must be
9 conducted and placed in the patient medical record;

10 4.8.4 In the event that a UDS has not been conducted during the prior 6-month,
11 period one must be conducted and documented in the patient medical record; aberrancies
12 must be documented and the plan for appropriate remediation documented;

13 4.8.5 In the event that a Material Risk Notice (MRN) and a pain contract have
14 not been completed in the prior 12-month period, they must be completed and placed in
15 the patient medical record; and

16 4.8.6 In the event that a patient taking chronic methadone has not had an EKG
17 performed in the prior 12-month period, one must be performed and recorded in the
18 patient chart and any abnormal findings must be followed up appropriately.

19 4.9 For the patients identified in term 4.7 who are prescribed chronic opioids without
20 benzodiazepines or carisoprodol, Licensee must attempt tapering as described below:

21 4.9.1 For patients with an opioid dose in excess of 300 MED as calculated by
22 the CDC calculator, at the time of the visit described in term 4.8 (the index dose),
23 tapering must occur at 10% of the then current dose per month until the MED is 300 or
24 less.

25 4.9.2 For any patients whose index MED is 300 or less, or any patient
26 successfully tapered down to MED 300 as outlined above, the taper must follow CDC
27 Tapering Guideline for Prescribing Opioids for Chronic Pain with a goal of 5% of the
28 then current dose per month until the MED by the CDC calculator is 90 or less.

1 4.9.3 The patient must be monitored for symptoms of opioid withdrawal and,
2 should any occur, these must be clearly documented in the patient chart and treated
3 appropriately, possibly including a temporary pause of the taper, but not any reversal of
4 the taper, and tapering must resume when withdrawal symptoms have resolved.

5 4.9.4 When such withdrawal symptoms occur, consideration must be given to
6 transitioning to buprenorphine and the decision-making discussed and documented in the
7 patient chart.

8 4.9.5 If buprenorphine is not tolerated, a return to a pure agonist is acceptable,
9 but tapering must resume when symptoms resolve.

10 4.10 For the patients identified in term 4.7 who are prescribed opioids in combination
11 with benzodiazepines or carisoprodol or the two together, Licensee must attempt tapering as
12 described below:

13 4.10.1 Licensee must stop carisoprodol and hypnotics immediately.

14 4.10.2 Tapering opioids must begin as prescribed in term 4.9 above.

15 4.10.3 When the MED is 90 or less, Licensee must taper chronic benzodiazepines
16 at a rate of at least 20% of the then current dose per month until benzodiazepines are
17 stopped.

18 4.10.4 Licensee must monitor the patient for symptoms of benzodiazepine
19 withdrawal and, should any occur, these must be clearly documented in the patient chart
20 and treated appropriately, possibly including a temporary partial reversal of the taper, but
21 tapering must resume when withdrawal symptoms resolve.

22 4.11 In the event that a patient identified in term 4.7 cannot or will not taper or transfer
23 to another provider, Licensee must co-manage the patient with a second physician in a specialty
24 that is appropriate to the patient's diagnosis. Appropriate specialists may be a board-certified
25 pain specialist, addiction specialist, psychiatrist or primary care physician who has training and
26 expertise in assessment and management of long-term opioid prescribing. For the purposes of
27 this Order, co-management must consist of a referral for a formal consultation with the specialist,
28 chart review by the specialist, and a conversation between Licensee and the specialist. The

1 patient must be managed in accordance with the recommendations of the specialist. Video
2 conferencing is acceptable for the consultations with the specialist. All reports from and
3 consultations with the specialist regarding the patient must be retained in the patient's medical
4 record maintained by Licensee. Licensee must bear the cost of any remuneration due the
5 specialist not covered by a third-party payor.

6 4.12 The above terms do not apply to Licensee's care of patients who are enrolled in
7 hospice or are receiving end-of-life care. Relevant diagnoses must be recorded in the patient
8 chart for these patients and Licensee must certify on the prescriptions for these patients that the
9 patient is a hospice patient or receiving end-of-life care.

10 4.13 At the discretion of the Board or its designees, random, no notice chart audits and
11 office visits may be conducted by Board designees.

12 4.14 Within 18 months of the effective date of this Order, Licensee must successfully
13 complete the OHSU Addiction Medicine ECHO Certificate Program.

14 4.15 Within two months of the effective date of this Order, Licensee must complete the
15 New England Journal of Medicine Pain Management and Opioids CME.

16 4.16 The Interim Stipulated Order of March 4, 2019, terminates effective the date the
17 Board Chair signs this Stipulated Order.

18 4.17 Licensee must inform the Compliance Section of the Board of any and all practice
19 sites, as well as any changes in practice address(es), employment, or practice status within 10
20 business days. Additionally, Licensee must notify the Compliance Section of any changes in
21 contact information within 10 business days.

22 4.18 Licensee must obey all federal and Oregon state laws and regulations pertaining
23 to the practice of medicine.

24 4.19 Licensee stipulates and agrees that any violation of the terms of this Order shall
25 be grounds for further disciplinary action under ORS 677.190(17).

The Board proposed taking this disciplinary action for alleged violations of the Medical Practice Act based on Licensee's discipline by the Iowa Medical Board and licensee's failure to disclose his prior alleged violations to the Board, to wit: ORS 677.190(1)(a), (8) and (15), 677.188(1) and (4)(a), and OAR 847-005-0085(1), (incorrect information on an application and disciplinary action in another state).

Licensee fully and finally waives the right to a contested case hearing and any appeal therefrom by the signing of and entry of this Order in the Board's records. Licensee neither admits nor denies, but the Board finds that Licensee's conduct as described in the September 17, 2021, Complaint and Notice of Proposed

1 Disciplinary Action violated ORS 677.190(1)(a) as defined in ORS 677.188(4)(a); ORS

4 action that is reportable to the National Practitioner Data Bank and the Federation of State
5 Medical Boards. Licensee understands the terms of this Order and signs freely, without fraud or

8 Licensee and the Board agree to resolve this matter by the entry of this Stipulated Order
9 subject to the following terms and conditions:

10 4.1 Licensee is reprimanded.

11 4.2 Licensee must pay a civil penalty of \$5,000. Two thousand (\$2,000) of this civil
12 penalty is due within 90 days from the effective date of this Order. The remaining \$3,000 is held
13 in abeyance as long as Licensee is in compliance with all terms of this Order. If Licensee fails to
14 comply with the terms of this Order, the \$3,000 held in abeyance shall be due and payable.

15 4.3 Licensee must inform the Compliance Section of the Board of any and all practice
16 sites, as well as any changes in practice address(es), employment, or practice status within 10
17 business days. Additionally, Licensee must notify the Compliance Section of any changes in

19 4.4 Licensee must obey all federal and Oregon state laws and regulations pertaining
20 to the practice of medicine.

21 4.5 Licensee stipulates and agrees that any violation of the terms of this Order shall

The Oregon Medical Board (Board) is the state agency responsible for licensing, regulating and disciplining certain health care providers, including physicians, in the State of Oregon. Michael Gerald Sherman, MD (Licensee) is a licensed physician in the State of Oregon.

2.

On March 4, 2021, the Board issued a Complaint and Notice of Proposed Disciplinary Action (Notice) in which the Board proposed to take disciplinary action by imposing up to the maximum range of potential sanctions identified in ORS 677.205(2), which may include the revocation of license, a \$10,000 civil penalty per violation, and assessment of costs, against Licensee for violations of the Medical Practice Act, to wit: ORS 677.190(1)(a) unprofessional or dishonorable conduct, as defined in ORS 677.188(4)(a) any conduct or practice contrary to recognized standards of ethics of the medical profession and any conduct or practice which does or might constitute a danger to the health or safety of a patient or the public; ORS 677.190(13) gross or repeated acts of negligence; and ORS 677.190(23) violation of the federal Controlled Substances Act.

3.

Licensee and the Board desire to settle this matter by entry of this Stipulated Order. Licensee understands that he has the right to a contested case hearing under the Administrative Procedures Act (chapter 183), Oregon Revised Statutes. Licensee fully and finally waives the right to a contested case hearing and any appeal therefrom by the signing of and entry of this Order in the Board's records. 3 677.190(13); and ORS 677.190(23). Licensee understands that this Order is a public record and
4 is a disciplinary action that is reportable to the National Practitioner Data Bank and the
5 Federation of State Medical Boards.

8 subject to the following terms and conditions:

9 4.1 Licensee must pay a civil penalty of \$2,500 within 90 days from the effective date
10 of this Order.

11 4.2 Licensee must complete ethics course that has been pre-approved by the Board's
12 Medical Director. Licensee must identify and obtain approval for the course within 45 days of
13 the effective date of this Order and complete the course within six months of the effective date of
14 this Order.

15 4.3 Licensee must inform the Compliance Section of the Board of any and all practice
16 sites, as well as any changes in practice address(es), employment, or practice status within 10
