REBEKHA KEEAOKALANI TIPPETTS, MD

IT IS SO ORDERED this 6th day of April 2017.

OREGON MEDICAL BOARD

SHIRIN SUKUMAR, MD
Board Chair
BEFORE THE
OREGON MEDICAL BOARD
STATE OF OREGON

In the Matter of

KENT RAY WALKER, DO
LICENSE NO. DO20295

STIPULATED ORDER

1.

The Oregon Medical Board (Board) is the state agency responsible for licensing, regulating and disciplining certain health care providers, including osteopathic physicians, in the state of Oregon. Kent Ray Walker, DO (Licensee) is a licensed osteopathic physician in the state of Oregon.

2.

On February 15, 2017, the Board issued a Complaint and Notice of Proposed Disciplinary Action in which the Board proposed taking disciplinary action pursuant to ORS 677.205(2), to include the revocation of license, a $10,000 civil penalty, and assessment of costs, against Licensee for violations of the Medical Practice Act, to wit: ORS 677.190(1)(a) unprofessional or dishonorable conduct, as defined in ORS 677.188(4)(a); ORS 677.190(13) gross or repeated acts of negligence; ORS 677.190(17) willfully violate any rule adopted by the Board; and ORS 677.190(24) prescribing controlled substances without a legitimate medical purpose or without following accepted procedures for examination of patients or for record keeping.

3.

Licensee is a board certified family medicine physician with a practice in Pendleton, Oregon. Licensee’s acts and conduct alleged to violate the Medical Practice Act follow:

3.1 The Board conducted a review of Licensee’s management and treatment of chronic pain patients (Patients A – E), which revealed a pattern of practice that breached the
standard of care, subjected patients to the risk of harm, and violated a Board regulation (OAR 847-015-0030) by failing to provide each patient with material risk notification (MRN), and constitutes prescribing controlled substances without a legitimate purpose or without following accepted procedures for examinations of patients or for record keeping, as described below:

- Licensee’s chart notes contain considerable detail, creating the impression that he conducts a thorough physical examination during every face to face clinical encounter, until the chart notes are compared with other monthly visits, where nearly identical detailed notes appear. It appears that for the most part, Licensee’s chart notes are a cut and paste from previous clinical encounters, casting the veracity of the notes into serious doubt.

- Licensee maintained his chronic pain patients on a long term medication regimen that included opioids in combination with a benzodiazepine, which subjected his chronic patients to significant risk of cardiac arrest and respiratory depression as well as other adverse side effects.

- Licensee’s chart notes do not adequately describe his decision-making process or how he assessed the risks and possible benefits of treating chronic pain with a long term regimen of opioid and benzodiazepines.

- In the context of managing chronic pain patients, Licensee failed to provide each patient with material risk notification (MRN) that was up-to-date with the medication regimen, as required by OAR 847-015-0030.

- Licensee failed to consistently use urine drug screens (UDS) to verify patient compliance with the treatment plan.

- Licensee failed to access and check the prescription drug monitoring program (PDMP) prior to starting (and maintaining) patients on opioid medications to treat chronic pain.

- Licensee failed to adequately describe the pain experienced by his patients and his chart notes do not reflect pain scores.
Licensee failed to explain his treatment decisions and how he assessed new
information provided by his patients.

Specific patient care concerns are set forth in the paragraphs below.

4.

Licensee and the Board desire to settle this matter by entry of this Stipulated Order.

Licensee understands that he has the right to a contested case hearing under the Administrative
Procedures Act (chapter 183), Oregon Revised Statutes. Licensee fully and finally waives the
right to a contested case hearing and any appeal therefrom by the signing of and entry of this
Order in the Board’s records. Licensee admits that he engaged in conduct described in the
February 15, 2017, Complaint and Notice of Proposed Disciplinary Action and that this conduct
violated ORS 677.190(1)(a), as defined in ORS 677.188(4)(a); ORS 677.190(13) gross or
repeated acts of negligence; ORS 677.190(17) willfully violate any rule adopted by the Board;
and ORS 677.190(24) prescribing controlled substances without a legitimate medical purpose or
without following accepted procedures for examination of patients or for record keeping.

Licensee understands that this Order is a public record and is a disciplinary action that is
reportable to the National Data Bank and the Federation of State Medical Boards.

5.

Licensee and the Board agree to resolve this matter by the entry of this Stipulated Order
subject to the following sanctions, terms and conditions:

5.1 Licensee is reprimanded.

5.2 Licensee is placed on probation for five years. Licensee will report in person to
the Board at least once a year during a regularly scheduled quarterly meeting at the scheduled
time for a probationer interview unless ordered to do otherwise by the Board. Licensee will
participate in three additional quarterly probation interviews each year with the Board’s
Compliance Officer (or its designee). Generally, these meetings will be held at Licensee’s
practice site or electronically, unless unforeseen circumstances dictate the Board to direct
otherwise. Interviews may be held electronically, at the Board’s discretion, between Licensee
and the Board’s Compliance Officer (or its designee) using Board established protocols for the
location and electronic transmission of the meeting. Licensee is responsible for supplying and
maintaining the equipment and technology necessary for him to participate in the electronic
meetings. Licensee will be notified if and when such meetings are scheduled in lieu of an in
person appearance at a quarterly Board meeting.

5.3 Licensee must pay a civil penalty of $5,000, with $2,500 payable 60 days after the
Board Chair signs this Order, and the remaining $2,500 to be paid in full within 60 days
thereafter.

which are pre-approved by the Board’s Medical Director, within 180 days from the date the
Board Chair signs this Order.

in the treatment of chronic pain, and must not prescribe in excess of a MED of 50 for the
treatment of acute pain. For the purposes of this Order, chronic pain is defined as pain that
persists or progresses over a period of time greater than 30 days. Licensee may continue to treat
chronic pain for patients who are currently enrolled in hospice or have a life expectancy of less
than six months. Licensee must certify on the written prescription that the patient is a hospice
patient.

relaxants (Schedule IV) or benzodiazepines (Schedule IV). Licensee may continue to prescribe
Schedule II medications with muscle relaxants or benzodiazepines to patients who are currently
enrolled in hospice or have a life expectancy of less than six months. Licensee must certify on
the written prescription that the patient is a hospice patient.

5.9 For current patients or those transferred to Licensee’s care who are currently
being prescribed Schedule II medications with muscle relaxants or benzodiazepines, Licensee

///
must taper, and eventually wean the patients from the muscle relaxants and benzodiazepines within 90 days.

5.10 If Licensee offers treatment for weight loss, Licensee must comply with the requirements of OAR 847-015-0010 and OAR 847-015-0015.

5.11 Licensee stipulates and agrees that this Order becomes effective the date it is signed by the Board Chair.

5.12 Licensee must obey all federal and Oregon state laws and regulations pertaining to the practice of medicine.

5.13 Licensee stipulates and agrees that any violation of the terms of this Order shall be grounds for further disciplinary action under ORS 677.190(17).
